# **UN Conference** On Development **Ends in Conflict**

The Associated Press

conference on industrial develop-ment ended in discord early Monday as the United States cast the sole vote against a preamble that called for increased aid to developing countries. The preamble also blamed global

nonindustrialized world's troubles. conflicts. The meeting of the UN Industri-

tions struggling out of recession and low commodity prices. Although the meeting was to have ended Saturday, the close was delayed by frantic efforts to reach agreement on all key documents.

The conference approved nine resolutions but failed to agree on two key ones, which involved international financial and industrial policies. Those were forwarded to the UN General Assembly.

The preamble, which cited such global conditions as high interest rates and sagging export prices as the causes of economic troubles in Third World countries, was approved 79-1 with 12 abstentions.

#### China Reported Ready to Accept A U.S. Port Call

BEIJING - China appears ready to agree to a port call by U.S. Navy vessels for the first time in over 35 years, diplomats reported Monday.

Discussions of a possible port call as early as next year highlighted a five-day visit here by the U.S. secretary of the navy, John F. Lehman Jr., the

diplomats said. Mr. Lehman left Menday for a tour of three Chinese naval installations.

Military analysts said a port cali would be largely ceremonial and would not mean regular U.S. naval access to Chinese

As a strategic factor, however, it would advance relations between the Chinese and U.S. navies while underlining their common interest in offsetting the growing Soviet presence in the Pacific and Indian oceans, said the analysts.

The United States called it an VIENNA - A United Nations inaccurate and biased final docu-

Majority votes on such topics as assistance for reconstruction of Lebanon, an appeal to end the Gulf war and technical assistance to the Palestinians were preceded by The preamble also blamed global heated arguments between the economic problems for much of the countries directly involved in the

They were Australia, Switin 1984, took place in a grim world economic climate, with buge Third World debts, high interest rates, protectionism by industrialized name amount of the protection of the p

That lineup reflected considerable dissension within the Western countries themselves. France, for example, voted for the preamble.

Richard S. Williamson, the chief U.S. delegate, said his country objected to the preamble, the main conference document, "for reasons of principle and substance."

Mr. Williams told the conference that the text "does not portray the facts of the world economic situa-tion and outlook in a balanced and accurate manner. It does not address the performance of domestic economic and financial systems in industrial development. It relies on partiality rather than analysis in assessing problems and consequently offers little of real sub-

After long debate, the conference decided to refer the two outstanding main resolutions - on financial resources and on industrial restructuring and redeployment to the General Assembly for further action.

The preamble urged Western countries to step up their development aid, saying "developed donor countries should maintain and as far as possible increase their aid with a view to realizing their commitments to international objec-

The organization's executive director, Abd-El Rahman Khane of Algeria, said it was premature to say if the conference had achieved concrete results. Western countries made no firm

meeting, although many spokes-men for Third World countries had urged industrialized nations throughout the 18-day gathering to increase their financial assistance. "We have to wait a little bit," Mr. Khane said, "to see that con-

crete measures are taken, that resources are made available to the UN system ... to carry out its very important mandate.

Vice President George Bush pulls off his jacket at a rally in Dallas on the eve of the Republican National Convention.

Republicans Still Seeking to Broaden Voter Base

By Howell Raines

New York Times Service DALLAS - In 1980, Ronald Reagan won the presidency by ap-pealing to voters who had tradi-tionally identified with the Democratic Party. As a byproduct of his victory, Mr. Reagan created for the Republicans a chance to broaden their electoral base at the expense of the Democrats.

Now, four years later, many analysts in both parties agree that the Republican Party, as an institution, did little with the opportunity Mr. Reagan created for it.

So, as they open their convention here, Republicans find themselves in the paradoxical position of having a presidential candidate of anding personal popularity, but a party organization with a narrow electoral base and an uncertain future.

The Democrats and independent 'swing voters," who boosted Mr. Reagan to an electoral landslide. have not moved into Republican ranks. Nor, despite the pleas of some of its "populist conservatives," has the party done much to have. welcome them.

Mr. Reagan's gains, the Republiandslide of 1980 did not convert cans lost 26 seats in the House of itself into gains in party member-Representatives and failed to ex-ship. Today, as in the first month of

than the ritualized celebration of Mr. Reagan's personal popularity that it appears to be.

It opens a critical period of decision. For the hidden agenda of this

Republicans open convention in mood of optimism. Page 3.

convention is the selection of the policies and leaders for the post-Reagan era. By these choices, the Republicans will be deciding whether to try to bond the voters of the "Reagan coalition" to their party or give the Democrats one more chance to reclaim this broad-based group of urban Roman Catholics. Hispanic people, blue-collar work-ers and Southern conservatives.

"I don't think the party across the country really took advantage of the 1980 elections," said Lyn Notziger, one of the president's senior political advisers. In 1984, he said: "If Reagan wins it, they're going to have another opportunity. They really don't start from the enhanced position they might

The public opinion polls support this view that the Reagan electoral landslide of 1980 did not convert pand their narrow majority in the Mr. Reagan's term, about 40 per-Senate, in which they retain a mar-cent of the voters are Republicans or Republican-leaning indepen-The party's membership remains dents, and about 50 percent are overwhelmingly white, suburban, Democrats or Democratic-leaning independents, according to a New York Times poll.

Yet the numbers do not tell the

of the Republican Party.

Mr. Reagan is a heavy favorite to win a second term. Considering the large number of seasoned campaigners eager to succeed him as the party's nominee in 1988, the Republicans have a solid chance to continue their hold on the White House beyond the Reagan years if they succeed this November.

And by sponsoring two successive two-term presidencies, the Republicans could create a "presidential lock" that some Democratic leaders regard as a serious threat to their long-term vitality.

The archbishop of Kampala, Cardinal Emmanuel Nsubuga, as-

serted in Boston last week that up

to 80,000 Ugandans were being

held without charges by the govern-

the Federal Election Commission. She said in a televised interview Sunday that "we are hoping the

American public will be satisfied." "Take a look at the tax returns," Ms. Ferraro said, "and you'll see that we do pay taxes and we pay them separately

The issue of Mr. Zaccaro's tax returns has surrounded her cam-paign since she announced Aug. 12 that, despite her earlier pledge to make the returns public, her husband was refusing to release them. On Saturday, however, she is-

sued a statement saying that Mr. Zaccaro had changed his mind. Asked whether the documents would show whether the Ferraro-Zaccaro household had paid "its

fair share of taxes," she replied: They sure will." On Monday, the campaign also released a statement detailing and defending the complicated real-estate transfer by which Ms. Ferraro repaid family loans to her 1978

campaign that had been ruled illegal by the election commission. To repay some of the loans, Ms. Ferraro sold her half-interest in a Manhattan building to Manny Lerman, a longtime business associate of Mr. Zaccaro, Mr. Zaccaro arranged the sale, the statement said, and, without Ms. Ferraro's knowl-

edge, arranged to buy the property back from Mr. Lerman later. Mr. Lerman paid Ms. Ferraro \$100,000 for her half-interest four times what she had paid for it

five months before, "This was consistent with their belief that the May 1978, purchase price was well below the property's

alue," the statement said. Mr. Zaccaro paid the same amount, \$100,000, to buy back a half-interest in the property. The statement said that Mr. Zaccaro and Mr. Lerman sold the property in November 1980, for \$375,000,

confirming their higher valuation than the 1978 price. in interviews and congressional tes- a Commonwealth Conference in timony that since 1981 more than Singapore in 1971, returned to The statement said that Mr. Zaccaro created the arrangement be-100,000 Lyandans may have been power in December 1980 after his cause he mistakenly believed he

Mr. O'Brien said the new accountants are now scrutinizing the separate tax returns filed by Ms. Ferraro and Mr. Zaccaro covering the years 1979 through 1983.

"If there are any changes, Mr. Zaccaro and Ms. Ferraro have agreed to make them — up or down," Mr. O'Brien said. "Any changes we will make public."

# Rama Rao, Supporters, Take Case to New Delhi

By William Claiborne Washington Post Service

NEW DELHI - The deposed chief minister of the south Indian state of Andhra Pradesh, N.T. Rama Rao, led 160 of his supporters in the state legislature to New Delhi on Monday in an effort to show that he has majority backing and was unconstitutionally unseated by Prime Minister Indira Gandhi's Congress-I Party.

Mr. Rama Rao, a popular former film star who had led an initiative to unite regional parties in opposition to Mrs. Gandhi, was summ ly dismissed Thursday by the Gandhi-appointed governor of Andhra Pradesh and replaced by a chief minister with Congress-I backing.

He pledged to demonstrate that he still has the confidence of the state assembly and is entitled to be reinstated. Mr. Rama Rao said he would parade his state assembly backers before the Indian president, Zail Singh, to prove the point dhi!" and "Restore democracy!" as he was not permitted to make when the train carrying the 160 legisla-

the governor of Andhra Pradesh, Ram Lal, refused to allow a confidence vote to be held last week in Hyderabad, the state capital. However, the presentation of the 160 state legislators before the In-

dian president had to be postponed because their train was 10 hours late. The meeting was rescheduled for Tuesday. In any case the president has no power to reinstate Mr. Rama Rao. Only Mrs. Ghandi and her cabinet can do that.

The Indian Airlines jetliner carrying Mr. Rama Rao and several other opposition leaders was de-layed in Hyderabad for more than four hours.

When he arrived, Mr. Rama Rao, who last month underwent coronary bypass surgery in the United States, was immediately taken away in a private ambulance because, aides said, he was exhausted by the trip.

Mr. Rama Rao's supporters chanted "Death to Indira Gantors arrived at the New Delhi sta-

As the political crisis deepened both in Hyderabad and New Delhi, sporadic acts of violence continued to erupt throughout Andhra Pradesh, forcing the cancellation of some train and bus service.

Although Mrs. Gandhi has remained aloof from the growing furor over Mr. Rama Rao, she is facing what is potentially the most serious political confrontation she has had to face since her return to power four years ago after being rejected by the voters after the 1975-77 "emergency" period.

Already, the death toll in rioting in Andhra Pradesh has reached 27, with more than 100 people injured, and India's major opposition parties, in an unusual display of unity, scheduled a series of nationwide protests Monday, including an all-Rama Rao. He has been accused by and Kashmir. Farouk Abdullah, central government officials of en-

gaging in "confrontation politics" with Mrs. Gandhi. Rumors swept through the

crowds of opposition party workers waiting at both the airport and railroad station in New Delhi that Mr. Rama Rao and his supporters were being prevented from traveling to the Indian capital. Stones were thrown through the

glass doors of the domestic arrivals hall at the Palem airport in New Delhi, sending passengers scurrying for cover as policemen used clubs to disperse the crowd. The authorities said the aircraft's denarture from Hyderabad was delayed because of a bomb threat, and that all of the plane's luggage had to be taken off the plane and

searched. Railroad officials said the train carrying the state assembly members had been delayed because of a "mechanical defect." Traveling with Mr. Rama Rao India labor strike, in an effort to were the former chief minister of force the reinstatement of Mr. the north Indian state of Jammu

# Republicans Open **Dallas Convention** In Optimistic Mood

WORLD BRIER \*

DALLAS —
Ronald Reagan and his conservative followers in unquestioned tive followers opened

mand. Republicans opened their national convention Monday in a mood of cresting optimism as they prepare to nominate Mr. Reagan and Vice President George Bush for a second term.

As Mr. Reagan campaigned in the Middle West before his arrival here set for Wednesday, growing questions about the personal fi nances of Representative Geraldine A. Ferraro, the Democratic vice-presidential candidate, fed his campaign's confidence that it would be able to use the party's 33d national convention to give the president an impressive start in the fall campaign.

As things stood, there was not

even the prospect of a floor fight over the party platform or delegate over the party platform or delegate. rules, the only two real issues delib-

> Turning back the last challenge to conservative dominance, the convention's rules committee Sunday rejected a move that would have increased the number of delegates apportioned to larger states in 1988. Under the current formula, adopted in 1972, a disproportionate share of delegates go to Reagan Visits Midwest states in the South and West, regions that are increasingly at the heart of Republican political strat-

As a result of that formula, the delegate roster for this year's convention bears little relationship to state size. Every delegate here from Alaska, for example, represents about 4,000 Republican voters, while every New York delegate rep-resents almost 25,000 Republican

The amendment, offered by James T. Neal of Indiana, received only 13 votes from the 106 members of the rules committee, well below the 27 needed to get a minority report to the convention floor.

With that issue out of the way and a rock-hard conservative platform ready for adoption, party leaders said they saw nothing to distract from their efforts to put on a political show that they hope will advance Mr. Reagan's chances.

Mr. Bush said those "looking for blood on the floor" at this convention would be disappointed. "The Republican Party has never been closer together, more unified nationally, than it is now under the leadership of Ronald Reagan," he told a rally at his hotel.

## Throughout this meticulously Republicans Still Seek To Broaden Voter Base

(Continued from Page 1) Gingrich of Georgia, a leader of the populist faction that wants the Republicans to be the party of Main Street rather than Wall Street, of middle-class America rather than

business-oriented conservatism. Will the party pick its future nominees from the wing represent-ed by Mr. Gingrich and Representitive Jack Kemp of upstate New York, from hard-line Reaganites like Senator Paul Laxalt of Nevada - or from among such champions of traditional Republicanism as Vice President George Bush, Senator Howard H. Baker Jr. of Tennessee and Senator Robert J. Dole of Kansas?

So even as delegates to the 33d Republican convention gathered to renominate their president and party leader than party leader, they are shadowed by the question of 1988 and beyond.

"The struggle is going to be pretty bloody, maybe not as bloody as the Democratic struggle this year, but almost," said Austin Ranney, a Democrat and a political scientist at the American Enterprise Institute, a conservative research organization. "Any time you ask your-self how the Republican Party is doing as opposed to how Ronald Reagan is doing, the faults come into pretty sharp focus."

The Republican Party's problems are not limited to the increasing estrangement from many women and blacks brought about by Mr. Reagan's policies.

The Republicans lost seats in the House two years ago, and this year their majority in the Senate is in jeopardy. Only 15 of the nation's 50 governors are Republicans. Even in Southern states that now

reliably vote for Republican presidential candidates, the party is almost impotent when it comes to winning local offices and state legislative seats.

As a result, Republican strategists who in 1981 talked about a general "realignment" that would make theirs a muscular majority party now speak of a "party de-

#### Visit by French Rightist Is Opposed by Greece

ATHENS — The government

has reacted angrily to a newspaper report that Jean-Marie Le Pen, a rightist French politician, plans to visit Greece and demand the reease from prison of its former mililary dictators.

government statement said that Greece, "in its struggle for democracy and freedom, has paid a heavy price for the ... crimes of Mr. Le Pen's protégés."

planned political extravaganza the city's air-conditioned convention center will offer the 2.235 delegates refuge from the wilting tempera-tures of 100-plus Fahrenheit (about 38 centigrade) outside but little in the way of political drama inside. Monday's keynote address is to

be delivered by Katherine Davalos Ortega, the treasurer of the United States and the highest-ranking His-panic member of the administra-The only real threat to the con-

vention script was the reluctance of the major television networks to broadcast the 18-minute film that is to introduce Mr. Reagan Thursday night.
Sunday, officials of Cable News

Network, after viewing the film, announced they would screen it.

NBC News officials also suggested that they might broadcast the film.

Reuven Frank, president of NBC News, said he had seen the film, which he described as "pap" and "cynical." He said it showed the American flag "about 200 times." Still, he said his network

might run at least parts of it. There was no word from CBS News and ABC News on whether they, too, might reconsider their decisions not to show the film.

President Reagan campaigned in the Midwest for the votes of farmers and blue-collar workers for the second day on Monday, United Press International reported from Cincinnati.

In an address prepared for deliv-ery at a rally in Fountain Square, Mr. Reagan warned that "the other side" will "provide the kind of leadership that will make sure we all put on our hair shirts and feel properly despairing again; the kind of leadership that will stop growth and start talking about the age of limits again."

"Well," he added, "the only thing that's limited is their optimism and imagination. Calling for a tax increase was their typical knee-jerk reaction. And believe me, when their knee jerks, you get kicked."

Later in the day, in remarks prepared for a rally at Decatur, Illi-nois, the president said, "I think we are witnessing a transformation in America, a return to those values we all learned here. The roots of patriotism are right here in the heartland of America."

Mr. Reagan got an enthusiastic reception Sunday from farmers and their families when he visited

ening both political parties. Now,

Horace Busby, a Democratic analyst, the age of "party building" is over, and the parties must turn

from the micropolitics of precinct

organizing to the macropolitical

publican ascendancy at the presi-dential politics level"

"What Reagan has done," added Roger J. Stone, Northeastern re-gional director for the president's

re-election committee, "is that he has finally galvanized the new co-

alition. It is the same coalition that elected Nixon and almost elected

Ford, that was arrested by Water-

gate and began to recoalesce there-

after. It is a coalition of traditional

Republicans — upper-income white Protestant Republicans — middle-income, middle-education-

al-level blue-collar ethnic Catholics and Jews. The future of the Repub-

lican Party lies in adding to that

coalition middle-class blacks and,

in increasing numbers, Hispanics.

able to articulate the shared values of the coalition," Mr. Stone con-

This coalition can also be exam-

ined in regard to geography and electoral votes. Most analysts agree that the the Sun Belt states have cut

into, and perhaps destroyed entirely, the electoral dominance of the

working to support a Republican lock on the presidency, according

to Robert Teeter, a politaker for the White House political strate-

gists. He cites polls that show a

tremendous and, to the Democrats,

paradoxical popularity for Mr.

Reagan, the oldest president ever elected, among young voters.

betraved.

By E.J. Dionne Jr.
New York Times Service

HENDAYE, France — Three worlds met last week along the beach in this coastal town near the Spanish border.

Marching up the rue des Grena-diers toward the water were several hundred protesters shouting demands that France refuse to extradite any of the Basque refugees that Spain is seeking on terrorism

To their left, on the waterfront boulevard, several dozen French policemen looked on silently, sweating in the sunshine under their heavily padded blue uniforms and plastic helmets. Their commander, using a builborn, told the demonstrators that their march was illegal.
All this was being taken in by a

crowd of men in bathing trunks and women in bikinis who had interrupted their tanning to take a look at the commotion that had intruded on their vacation. French politics and diplomacy

have produced an unlikely melange of tourism and terror in the Basque country this summer.

After years of refusing to cooperate with Spain on the problem of Basque violence, the French government has declared its willingness to help Prime Minister Felipe González of Spain in his war against the ETA (Basque Home-land and Liberty), the Basque guer-

A court in Pau has ruled that four Basque refugees accused of murder and other crimes can be extradited to Spain, a judgment that in effect threw the final decision back to President François

Mitterrand's government.
These actions have had violent results, especially in this area but also wherever French interests are to be found in Spain.

Bombs have gone off at a dozen stores and factories in Spain connected with French interests. French tourists in Spain have had their cars blown up or their tires France has never sent Basque

refugees back to Spain, and almost any decision to help the Spanish government, many people believe, could lead to more violence. For even as the Basque nationalists threaten more attacks, a mysterious rightist death squad known as the GAL has been killing Basque refues in France.

gees so far, but it interrupted its activities this summer. On top of all this, there have been mysterious explosions at three factories in France where Basque

The GAL has killed nine refu-

refugees were thought to work. "Are extraditions the solution?" asked a court official in Pau who is handling the case. "If they happen, there will be agitation, but the fied. If they don't happen, the Spanish will be unhappy and the

GAL may resume its activities." For years after the victory of Franco's forces in the Spanish Civil War, the Pyrenees Mountains along the border provided escape routes for liberals and Communists, Socialists and Basque nationalists seeking to escape Spanish re-

#### Can Soot Be the Deterrent?

After a nuclear war, according to a new conjecture, will come nuclear winter, a cold darkness so profound that land in both hemispheres will freeze, crops will fail and life will perish. War between the two major powers would thus bring inevitable disaster to all other countries, too. Is the thesis well founded? And if it is, then what?

Nuclear war was long thought unlikely to affect the global climate. According to the National Academy of Sciences, nuclear bombs would only pulverize rock, with a result no worse than the dust clouds puffed up by volca-noes. "At most," concluded the academy in 1974, a half-degree temperature change from average could be expected from a 10,000megaton nuclear exchange.

Like everybody else, the academy overlooked one thing: soot. When cities burn, as did Hiroshima and Nagasaki, tons of it are created. Dust merely scatters smalight but soot absorbs it. The two scientists who saw the importance of soot, Paul J. Crutzen of West Germany and John W. Birks of the United States, suggested in 1982 that nuclear-sparked fires could blot out sunlight for weeks.

That has prompted new studies, including several by the Reagan administration, which is, to its credit, taking the nuclear winter idea seriously. Everyone agrees soot was wrongly ignored. But, until the studies are completed, it is premature to accept the details of any one forecast of nuclear winter, including that issued by a group of scientists last November.

Everything depends on how much soot gets how high. Forest fires now produce a third as

much soot each year as a nuclear war might create, but it never gets high enough to derange climate. Nuclear-made soot, if not dispersed by winds, might billow up to the stratosphere, beyond the reach of weather, and linger for months. On the other hand, unlike high dust, the high soot clouds might disperse because of their own absorbed heat.

When all such uncertainties have been narrowed, a climatic effect of some degree is likely. It may set an upper limit - more likely a range of values - on the megatons that might be exploded over cities without triggering climatic catastrophe. What difference would such a threshold make?

In the short term, perhaps not much. Not even a new dimension of terror can undercut policies based on deterrence. If necessary to preserve the credibility of deterrence, arsenals could be adapted to minimize soot effects. A climatic effect is yet another strong argument for negotiating steep reductions in nuclear arsenals. But if the megatonnage threshold is too close to what minor nuclear powers already have or could attain, major powers may shrink to step beneath it.

Yet if the new calculations show a significant climatic effect from soot, nuclear winter would, more certainly even than other horrors of nuclear war, mean the end of civilization. No country would survive, possibly not even a family. That prospect has to make a difference eventually, however successful the policy of nuclear deterrence has been so far, and however invisible the alternatives.

# **Split Personality in Dallas**

The Republican Party began its convention in Dallas yesterday amid an argument about what that party actually has become. This is understandable. Republican activity of the national kind seems split between two oddly ill-matched pastimes these days.

One is the remorselessly earnest develop-ment, down to the last detail, of a new conservative theology. This is a kind of political fundamentalism that seeks to apply, literally and rigidly, certain conservative principles to just about every aspect of life. It leaves little to choice, and practically no room at all for human error, weakness, dissent or discretion.

The other main activity of the Republicans in this campaign year has been the staging of photographs and tableaux — images, really — that suggest a genial, open-armed and open-hearted administration strolling amiably through America's joys and sorrows, reassuring us that all will be well. There is the scene with the Dallas Cowboy Cheerleaders, the one with the First Family decked out in Olympic blazers, the sober and melancholy stroll along the beach in Normandy, and so forth.

One message is tight and demanding, the other loose and relaxed. In a way the two stand as pretty good representations of the actual conflict within the Republican Party. It is between those who wish to sharpen and thus narrow the definition of what it stands for, and those who want a little more tolerance, a little more discretionary space, a bigger tent. This, not the traditional conflict between liberal and conservative Republican ideas, is what the tension in the party now is all about.

taking place. The narrowers-down prevailed. Republicans modestly aspiring merely to leave room for some who do not oppose the Equal

Rights Amendment, for example, were not allowed even that small and ambiguous satisfaction. The people in charge gave no quarter.

The argument among the various parties to this dispute, of course, begins with an argu-ment over whether the ideology espoused in the current platform is special and narrow or whether, as its proponents believe, it represents the views of genuine mainstream America. But it does seem to us that the better of this argument is had by those figures, starting with Ronald Reagan himself, who have done the national running for office or who intend to and who, with one or two notable exceptions, are on the side of easing and opening up.

Not so long ago the Republicans were widely thought of as a minority party with minority views that had always to be reaching leftward to a political center if they were to win elections. This is not nearly so self-evident as it once was. These days it seems the other way around: The Democratic Party needs to reach rightward to prevail. No one can be sure how much of all this has to do with personalities and fate - the Democrats have really hashed it up for themselves in recent years, and the Republicans have been led by a man of great personal popularity and political skill.

In some ways Dallas is about other contests to come soon. The would-be successors are there, and not nearly so certain as some of them sound that the current Republican selfdefinition is the right one for a successful political future. One gets a sense that this is a party whose voice does in fact represent much that is going on in the lives and minds of stands in danger of missing this opportunity by writing itself into a small political corner.

-THE WASHINGTON POST.

#### Fear of Freedom in Haiti

For 26 years under two Duvaliers, Papa Doc and Baby Doc, fear has haunted the lives of 6 million Haitians - fear of hunger and disease in the hemisphere's poorest nation; fear of the Tontons Macoutes, the bodyguards with a license to kill. But Jean-Claude Duvalier, who has succeeded his father as president-for-life,

is also dogged by fear — of freedom.

In May, when the U.S. Congress was reviewing an aid package of \$54 million, Mr. Duvalier promised press freedom and respect for human rights. His word, when tested, proved worthless. At the appearance of critical newspapers, he silenced them by decree and banned all political activity except his own.

This is an old story for Haitians brave enough to defy Baby Doc. One is Silvio Claude, 50, leader of the tiny Christian Democratic Party, whose newspaper was among those silenced. He has been to jail six times since 1979, when he spunkily ran for parliament in one of the regime's "elections." He has endured torture, detention, house arrest and banishment; two sons are in exile; a daughter was recently mauled by security police.

Equally shameful has been the persecution of Grégoire Eugène, leader of the Social Christian Party, a constitutional lawyer who once tutored the younger Duvalier. In June he was seized without charge or the required warrant in reprisal for views expressed in his journal, Fraternité. He was dismissed from his professorship at the national university and is now at home, under close police surveillance.

These affronts occurred after Secretary of State George Shultz had certified to Congress that human rights were advancing in Haiti. Baby Doc repaid the favor by making non-sense of Mr. Shultz's assurances.

President Duvalier shows a cavalier contempt for American opinion because he counts on indifference and inattention. And because Haiti's per capita income is a meager \$280 a year, he knows that Congress is reluctant to withhold economic aid. But \$1.4 million is earmarked for military training and security programs. Deleting that sum would be a useful way of serving notice that the United States will not be forever taken for granted.

- THE NEW YORK TIMES.

#### FROM OUR AUG. 21 PAGES, 75 AND 50 YEARS AGO

1909: Indianapolis Track Is Deadly INDIANAPOLIS - The American Automobile Association has issued an ultimatum that changes must be made in the new Indianapolis motor speedway, where William Baurque, aged twenty-six years, the driver of a Knox automobile in the 250-mile race, and his machinist, Henry Holcombe, aged twenty-two, received mortal injuries [on Aug. 19]. The Knox automobile, which reached fourth place, was being driven at a rate of twenty-five miles an hour. When the accident occurred it was on the lifty-fourth lap. On the home stretch the machine skidded and "turned turtle," Robert Burnam won the race in a Buick machine in 4hr. 38min. 21/sec. The course has dangerous turns and ruts, which caused Louis Chevrolet, a French driver, to retire from the race.

1934: Speaker Henry T. Rainey Dies WASHINGTON — The death of Speaker Henry T. Rainey [on Aug. 19] deprives the President of one of his staunchest supporters in the Lower House, and it may precipitate a battle for the speakership between the New Deal and old line Democrats. His death came as a shock to Washington and to the White House, as it was not even known that he was ill. In a tribute to the Speaker, the President said: "I will always think of him as a humanitarian whose fine patriotism thought first of all of what he conceived to be the well being and the interests of all the people." His death will complicate the task of the Administration in the next Congress, because of the forceful manner in which he backed up the President and his ability to placate intra-party quarrels.

# Nuclear Autumn's Mad Enough

By John A. Osmundsen

N EW YORK — More than a dozen U.S. government agencies are going to spend up to \$50 million in the next five years to try to determine whether the dust, soot, ash and smoke raised in a nuclear war of indeterminate proportions would blot out the light of the sun and bring on a "nuclear winter" in which life on Earth would be all but extinguished.

I admit, it seems like a good question to ask before things get further out of hand. After all, there is a growing consensus that the calamity of nuclear war might well occur. Richard P. Turco, a physicist and one of the "fathers" of the nuclear winter theory, says that "initially, there was lots of skepticism" about the idea that we could end life with a nuclear exchange. "People tried to punch holes in it, but that didn't work."

But another "father" of sorts - this time of the hydrogen bomb - said that too many uncertainties remain. The conclusion that Edward Teller drew was that attempts at specific predictions - presumably, in light of Dr. Turco's statement, predictions as to whether all life would vanish, or only humanity and a few other sensitive species — were extremely premature.

Seriously, what can we expect from a five-year, \$50-million attempt to answer these fascinating questions? The worst — or best, depending on your perspective — would be a finding that nuclear war is certain to

extinguish all life on Earth. And what is the best we can expect from the study? It is highly unlikely that it will definitely establish whether nuclear war would extin-guish life. Science is seldom able to come up with unequivocal answers or prove a negative - here, that life would disappear. Therefore, the most we can expect is the conclusion that a nuclear war might — but

also might not — bring human existence on this planet to an untimely end. Some comfort.

The point, however, is that such a result leaves us in the same spot — minus the \$50 million, of course that we are in right now. That spot is that we don't know what the outcome of a miclear war would be, and we can't afford to find out for certain, meaning that

nuclear war is out of the question and always will be. If the United States government is determined to spend \$50 million in the rarefied realm of apocalyptic conjecture, then a better question might be: What does it mean that civilization has evolved to the point of being able to debate seriously whether it has acquired the power in effect to pull the plug on all earthly life?

The writer, formerly a science reporter with The New York Times, is author of the forthcoming "Sweet Reason: On Life, Love and War in the Nuclear Age." He contrib-uted this comment to The New York Times.

# Power in East Germany: A Party Out of Touch

By Franz Loeser This is the second of three articles.

ally, the Politburo appoints itself. Once a member of the Politburo,

always a member. I remember the late East German Polithuro member Friedrich Ebert, then in his 80s, confiding to me that he was much too old for his position. He said he had asked to resign but the Polithuro turned him down on the grounds that it would set a bad precedent. Mr. Ebert died a member of the Politburo.

There are nearly 2 million memno say in major decisions.

Everything appears democratic, of course. When a new Central Committee is elected, local cells in factories, offices and housing projects send del-egates to a local caucus, which sends delegates to a district convention and

OLOGNE - Formally, a Com- so on up to the party congress, which munist party's leadership is elects a new Central Committee every elected by the party members. Actu- four years, I can attest from my expenence as leader of a local cell and delegate to a district convention that this is really a farce. There is no real grass-roots involvement. The election is orchestrated from the top.

.....**#**1

At the 10th Party Congress in 1981 there was a blatant example of this. When the delegates arrived in Berlin they found in their hotel rooms lavish gifts, including pocket computers and digital watches — items that or-dinary people cannot buy. Before the bers of the party (about one East congress began, the price they had to German in 10), but most have little or pay for those gifts was made clear.

The delegates had to reheatse when spontaneously to rise from their seats and appland the re-election of General Secretary Erich Honecker (who at that time was not even for-maily elected), and to practice what slogans they would have to shout.

Is it any wonder that spathy and cynicism about the party and govern-

cynicism about the party and govern-ment are widespread?

A recent study of the effectiveness of the main political television news program, "Die Aktuelle Kamera" (Contemporary Camera), estimated that 3 percent of viewers switched on this program. After 1 minute, 0.2 per-

cent were still watching.

The party leadership is fully aware of this, it has issued numerous resolu-tions criticizing the catastrophic state of its propaganda. But nothing has changed. I often discussed this prob-lem with the the late Politburo member Albert Norden, then responsible for propaganda. He would shrug his shoulders helplessly.

The party machine is too ossified, and the whole bureaucracy too inicy of not letting South African liberation movements use Zimbabwe to flexible, to change its propaganda. Instead it constantly repeats stale phrases such as "conditions in socialist society are continually getting ber-ter," or "capitalism is dying." Every Thursday morning the heads

of the mass media show up at the Central Committee in Berlin to bear the head of the Central Committee's propaganda department give the par-ty line for the coming week. The slightest deviation from the line is suicidal, so all the media say the same

suncidal, so all the media say the same thing in the same dull, dogmaic way. Meanwhile, the party maintains its power through iron discipline. Not long ago, when I was active in the East German peace movement, I published an article in the German Journal of Philosophy maintaining that the words of the Jewish prophe "to beat the swords into plowshares" do not contradict Marxist philoso-phy. (The phrase had become the slogan of the peace movement.)
Soon afterward I was criticized by

the assistant head of the department of science in the Central Committee. From that point on I was completely isolated. I was unable to publish articles of books or speak in public.

I was an enemy of the state, and

my career was at an end.

It is not hard to see why Communist bosses sooner or later become corrupt, dictatorial, insensitive and inflexible, or how the machine loses its sense of perspective, its orientation, its understanding of its role in society and history. In East Germany there have not

yet been any excesses comparable to those of the Stalin era in Russia, or to the genocidal rule of Pol Pot in Cambodia. But the corruption of the leadership has gone a long way.

The writer served as first secretary of the Communist Party at Humbolat University in Berlin for many years and was for the last 20 years a member of the presidium of the East German Peace Council. He contributed this comment to The Washington Post.

# Power in Zimbabwe: Mugabe Gets a Freer Rein

LONDON — The first congress of the ruling party, ZANU-PF, on Zimbabwe's soil has brought an important turning point in the country's political history. After four years of mdependence, the government and the political system were already overdue for a major shake-up. Prime Minister Robert Mugabe

has emerged much more strongly entrenched from the reorganization of the ruling party's machinery. He now has effective executive authority in the party that matches more closely his personal authority in the country.

A major advance of the new political structure of ZANU is that it removes the party's Central Committee as an independent power base in rivalry to the cabinet.
The Central Committee of 30

members - most of them elected while in exile during the liberation struggle — has been the political authority ultimately responsible for government policy. It has now been tripled and converted into an advisory body. With so many members, meeting perhaps quarterly, it will no longer be so easy for cliques within ZANU to manipulate the committee as an instrument to obstruct the prime minister and the cabinet. Effective power within the ruling

By Colin Legum

party passes to a 15-member Political ter term has been interpreted in some Western media as indicating Soviet nfluence. In fact, the term has been widely used by African political parties (especially in French-speaking countries) as an alternative description for a central committee or executive committee. Soviet influence is distinctly absent in Zimbabwe, and especially in the development of Mr. Mugabe's political ideas. These have been strongly influenced by the Chinese rather than the Russians.

The three key people in the new Politburo are Mr. Mugabe, his depu-ty prime minister, Simon Muzenda, and the administrative secretary, Maurice Nyagumbo, Mr. Muzenda, a man of sober views, is widely respected as the "grey head" of the party. Mr. Nyagumbo, who spent most of the years during the liberation struggle in prison, is a notably moderate, tolerant and humane political figure. This trio will wield considerable influence within the Politburo and thus within the party and the government.

Despite Mr. Mugabe's strong emphasis on the need to turn Zimbabwe into a single-party state as the best

way to establish national unity, there Bureau, or Polithuro. Use of this lat-ter term has been interpreted in some curring in the near future, since he is personally committed to achieving this by constitutional means.

The Lancaster House agreement imposed an independence constitution that requires a 100-percent vote of Parliament to make any substantial change in the constitution. This requirement stands until 1990.

Unanimity would require that three groups of parliamentarians be won over to the idea of a single party: Joshua Nkomo's opposition Patriotic Front group (ZAPU); the reamants of Jan Smith's Republican Economics of Ian Smith's Republican Front, now numbering only seven; and the 13 independent white members. Mr. Mugabe continues to empha-

size the single-party issue, to per-suade people of the need for the change. Similarly, he speaks of the importance of Marxism-Leninism, while pursuing pragmatic policies in developing a mixed economy. Like President Julius Nyerere of

Tanzania, Mr. Mugabe is a believer in political education. His speeches should be interpreted as those of an educator and reformer rather than an impatient revolutionary. Nobody

1980 Chateau

DEVIS GREBU

offspring Walter and Geraldine — it could be a landshide.
But if the weather has been wet and cold and the grapes
still aren't ready by Oct. 3, bet the ranch on the Republicans — and, for insurance, pray that those beautiful
undulating Bordeaux vineyards are bit with a late cold

One way or another, rain or shine in Aquitaine, the

whole thing will be over by early October. Sure, the candidates will have to go through the mo-

tions, exchanging charges and accusations about the deficits, nuclear war and other meaningless chatter. Sure,

the press will breathlessly assure you that the campaign is

"heating up," and the pollsters will insist that it is "too close to call." But you will know that your fortune does

not depend on anything so erratic as campaign-ending blunders, the whims of swing voters or election-day turnout. The networks will badger Texas voters with enit polls, but for you the only exit poll that matters will have

happened weeks before when some unknown oenologist

The writer, who claims a modest collection of good vintages, contributed this treatise to The New York Times.

(The weather word from Bordeaux, after a dampish and

cooler-than-average first half of August, is that the American election result is still up in the air.)

snap or, even better, lashed with hail.

declared the Bordeaux grapes mature.

It is this sense of what is practical that has led him to develop an unpub-licized understanding with the Pretoria regime over mutual security problems. Through regular secret ex-changes, it has proved possible in recent months to come to an understanding whereby South Africa will cease its destabilization policy of co-vertly supporting Mr. Mugabe's op-ponents in Matabeleland, while Mr. Mugabe will maintain his strict pol-

launch attacks across the border.

Mr. Mugabe has promised a "sericus purge" of colleagues who can be
proved guilty of using their positions
to enrich themselves; corruption has become a serious problem, allegedly affecting ministers and party leaders. He has also declared war on tribalists in his government — tribalism, in this context, meaning not just the Shona-Ndebele rivalry but also the rivalries

among the four major Shona clans.

If Mr. Mogabe can accomplish
these tasks, setting aside sentiment
toward colleagues who fought alongside him in the bush, he is likely to emerge all the stronger. International Herald Tribune.

#### The Fact Is, Scientists Usually Don't Know — Yet researchers whose work ends up in the popular

WASHINGTON — Long ago convicted by medical authority as the villain in deadly high blood pressure, salt recently joined the lengthy list of confusing scientific flip-flops over what is good and bad for a prudent diet. Thus, once again, the public finds reason for exasperation with science's recurring failure to get things settled for keeps. What's going on?

The answer is that science is functioning as it always has - in fits and starts of exploration that, step by step, plus many missteps, seeks to understand our puzzling world. What is different now is that there is a booming science press out there providing blow-by-blow reports for a pub-lic yearning for healthful longevity.

In olden times, the twists and turns of scientific research rarely spread beyond the professional boundaries of science. Today they are instantly conveyed to this eager public by science writers who scrutinize research journals and prowl through laboratories in quest of the latest find-ings. The salt episode illuminates the process.

Although excessive salt and high blood pres-sure have long been paired in established medical wisdom, an alternate view was developed through a study carried out by researchers at the Oregon Health Sciences University, in Portland, and Temple University, in Philadelphia. They attributed blood pressure increase to deficiencies make a case for any failing on the part of the

Forget New York:

Win in Bordeaux

By Verne W. Newton

WASHINGTON — Forget about the Ferraro factor, Central America, Texas, the polls, deficits and debates. It is events in France, not America, that deter-mine who wins in November. In vino veritas — in wine is

the truth: When Bordeaux has a good year, the Democrats win. When it has a poor year, Republicans win.

The link became apparent in 1956, when one of France's most dismal postwar vintages was followed by Dwight Eisenhower's landslide re-election. The obligations of the village was not out of the village was not out of the village was not out of the village.

buggit elseanower's landstine re-election. The obligatory exception to the rule was got out of the way in 1960, a
disastrous year for Bordeaux. John Kennedy won anyway
— Cook County being impervious to any laws except
those uttered by Mayor Richard Daley, who didn't like
wine. But since 1960 the trend has been unbroken.
In 1964, a good Bordeaux year, Lyndon Johnson
respect his landstide. In 1968, after fine years in 1966 and
1967. Rordeaur suddenly plummented estamulting Pich

1967, Bordeaux suddenly plummeted, catapulting Richard Nixon into the White House.

Things looked good for the Democrats in 1970 and 1971 as the vintages skyrocketed to incredible ratings. Predictions from Paris said 1972 would be one of the

greatest vintages ever, and in America the Democrats started boasting that anyone could beat Nixon.

Disaster struck. Too much rain and lingering cold caused the French wine market to come crashing down, taking George McGovern and the Democrats with it.

The magnificent 1975s were followed by a very solid

It looked as if the Democrats were on a roll with a

superb vintage in 1978 and a robust follow-up in 1979. No

party in this century had lost the White House after only

one term ... but now the luckless Jimmy Carter fell

victim to a late rain that washed precious bacteria off the

grapes, and 1980 ended up as the worst vintage in the last nine. So Rouald Reagan marched into the White House.

for you? The crucial months are August and September.

So you can get your money down on a sure thing. Here's what to look for. If France has a hot, dry August

with a little bit of rain at the end followed by mild

September days, things will be looking very good for the Democrats. But if August brings too much rain and is unseasonably cool, or if it is a cold, wet September, you

which means that the grapes can be picked. If it comes in late September, after weeks of agreeable weather, cash in the college trust fund and the Individual Retirement

Account and put everything you've got on the Democrats.

If the picking starts on Sept. 26, start naming your

can ridicule the idea of a woman in the Oval Office. Above all, watch the key indicator: the day when the French authorities declare the grapes mature by issuing the ban de vendange—the proclamation of the harvest—

Now that you know all this, how can you make it work

76, good enough for a Jimmy Carter victory.

By Daniel S. Greenberg

of calcium, potassium and vitamins. They even propounded the revolutionary idea that high blood pressure could result from too little salt. This turnabout view on a supposedly settled matter of diet and health was published in a journal that is esteemed among scientists although little read by the general public, the weekly, "Science," of the American Association

for the Advancement of Science. It was promptly reported on the front pages of The New York Times and many other American papers. Why all the media attention? Because the turnabout was plainly newsworthy by one of the generally accepted definitions of "news": anything unusual of public import. In addition, it. could be argued that there is a public-service element in spreading the word about a potential-ly important health finding — although the news accounts clearly noted that the findings were

disputed by other researchers. Along with those often-heard complaints that science says "everything causes cancer," the salt episode lends itself to droll commentary about

H

Chateau

DEMOCRATS

press. Some of them are publicity hounds and seek out attention. But the basic problem is that we have come around to the view that science is too important to be left to the scientists.

To judge from the proliferation of pop science magazines, television coverage and newspaper science sections in the last four or five years, the public is keen for news about science. The difficulty is that science, unlike an airplane crash, is frequently incremental, tentative and inconclusive. It comes in bits and pieces - many of which, like the salt report - contradict earlier findings. If science journalism concerned itself only with matters that are scientifically settled for all time, pickings would indeed be lean.

Readers puzzled by the cacophony of scientific news might keep that in mind and refrain from investing too much faith in the finding of the day. Although science seeks to project an image of bedrock certitude, it is actually a most uncertain enterprise. H.L. Mencken credited scientists with a boundless, almost pathological thirst to penetrate the unknown," but he also noted that the process of research is akin to "a dog sniffing tremendously at an infinite series of ratholes."

The writer is editor and publisher of Science & Government Report, an independent newsletter.

IBM's Role in Europe Regarding the report "IBM Links

With Big Names in Europe in Bid to Increase Its Share of the Market" (Aug. 15) by David E. Sanger: Your article on IBM Europe gives,

I believe, a misleading impression of IBM's standing in Europe. Your article states that "for as long as it has sold computers in Europe" IBM "has been an outsider." On be-

half of IBM's more than 100,000 European employees, I wish to take ex-ception to that statement. IBM has been well integrated in the European community for more than 60 years as an investor, employer, manufacturer, consumer, exporter and taxpayer. We have 13 plants and six research

and development facilities in the 10 countries of the European Community, and last year invested almost \$1.2 billion in plant and manufacturing equipment. We are among the 10 arrest taxnavers in the Community. largest taxpayers in the Com last year paying over \$1 billion in taxes. Our roots in Europe run very deep, in terms of people, resources and long-term commitment.

I also want to set the record straight on IBM Europe's contribution to IBM's total revenues, which your article states has been declining. terms have grown an average of 25 percent annually since 1981, about the same as IBM worldwide. Virtually all of the so-called "decline" in IBM Europe's share of total IBM revenues can be attributed to the various European national currency exchange rates versus the U.S. dollar.

As I believe IBM's customers in Europe well recognize, we are an important part of the fabric of the data processing industry in Europe, and we are helping to modernize Europe-an business and make it more competitive in world markets. We have a long record of contribution in Europe, of which we are very proud. Any suggestion that we are "outsiders" is quite simply wrong.

KASPAR V. CASSANI, President, IBM Europe. Puteaux, France.

make with a time a market the 1992.

Light on Paraguay

I would like to commend Martin Andersen for his insightful article on Paragusy ("Paraguay Resists Trend of Neighbors to Liberalize," Aug. 3). Mr. Anderson points out that General Stroessner has been in power for 30 years, giving Paraguay the dubions distinction of having the longest run-ning state of siege of any country in the world. The United Nations Commission on Human Rights, at its cur-rent session, expressed concern over human rights violations in Paraguay and passed a resolution (1984/46) "inviting" the government to consider ending the state of siege in order to promote human rights in the country. Mr. Anderson indicates that there is little chance of that.

Amnesty International, in its February 1984 report on Paraguay, documents cases of arbitrary arrest, detention without charge or trial, torture, death in policy custody, and "disappearance" both in Paraguay and among Paragnayans in Argentina. In other Latin American countries,

notably Argentina, entreached patterns of repression have been measurably relieved by intense media scrutiny and the resulting international condemnation. It is not unknown for IBM Europe's revenues in absolute governments to alter their practices under the constant glare of worldwide exposure. Torture and repression breed and flourish in the dark. LISA J. SCHWEBEL. Edioburgh.

> **West Germans and Kids** Regarding "Take the Kids and Go: Survival Notes From Around the

World" (Weekend, July 6): As an American father of a 13year-old daughter born and raised in West Germany, I cannot agree with any of your negative statements about the treatment of children in West Germany. The article was not only unworthy of appearing in your newspaper, it was also insulting to the West German people and nation.

EDGAR L. BERGMANN. Hofheim, West Germany.

# Tries to Discourage Repeat Travelers

By David Lamb

CAIRO - Moslems throughout the Islamic world are preparing for what has become the largest religious celebration at a single site on Earth:, the annual pilgrimage to

Saudi Arabia, the guardian of Islam's holiest sites, is expecting a record,3 million Moslems for September's hajj, a pilgrimage every able-bodied Moslem is expected to make at least once in a lifetime. Many go five and six times.

The crush will be so great that the Saudi minister of interior, Prince Nayif ibn Abdul Aziz, has called for the number of pilgrims to be restricted and is discouraging all but first-time visitors. A group of Islamic scholars met in Mecca not longago to study the "legal eligibil-

ity for pilgrimage."

The rites at Mecca historically have served to unify Moslems, bringing together rich and poor, influential officials and peasant herdsmen, believers who speak different languages, have skins of dif-ferent colors, live in scattered

In the past, making the hajj generally meant making a perilous trip on foot across the desert. This year, Egyptian pilgrims in chartered ships are crossing the mined Red

Thoughout the Moslem world, most airports will be teeming with pilgrims, the men dressed in seam-less white garments that leave one shoulder exposed, the women valed and cloaked so that no flesh is-showing.

For months, Saudi officials have been circulating throughout the Arab world, selling travelers' checks in Saudi currency. Officials in Riyadh hope that the checks, valid only in Saudi Arabia, will eliminate the haggling over ex-change rates that confuses many

# Vatican Assails 'Theology of Liberation'

By Juan de Onis New York Times Service
RIO DE JANEIRO — Conser-

vatives in the Vatican are intensifying their campaign against Roman Catholic clergymen throughout Latin America who have developed a "theology of liberation" support-

ing revolutionary change.

Currently at the center of the dispute are four dissident priests in Nicaragua, who oppose their bishops and insist on continuing to participate in the leftist Sandinist gov-

Pope John Paul II recently ordered the four, all of whom hold cabinet posts, to quit their jobs or give up the priesthood. One of them, Ernesto Cardenal Martinez, the Sandinist minister of culture, said he and the others would defy the Vatican order.

The line being drawn in Nicaragua extends throughout Latin America, with Vatican conservatives disturbed by what they see as a growing trend among progressive Latin American clergy to cooperate

with Marxist revolutionaries.
The Reverend Leonardo Boff, a Franciscan monk in Brazil, is one of the leading exponents of the pro-gressives' theology of liberation. He has been summoned to a hearing on Sept. 7 by Cardinal Joseph Ratzinger, who heads the Vatican's Congregation for the Doctrine of the Faith. Father Boff has been asked to testify about his theological writings, for which he has al-

ready been admonished.

The hearing for Father Boff is seen as part of a full-scale Vatican assault, which is expected to include a declaration by the pope before the year's end. Cardinal Ag-nelo Rossi, a conservative Brazilian bishop who administers the Vatican household, said the pope will condemn the theology of liberation for deviating from church doctrine.

"There has to be a pruning," Cardinal Rossi said during a recent visit to Brazil. "We can't accept class war as a concept because it leads to violence, and that is against the Gospel."

The issue has been a topic of controversy in Latin America since the bishops of this region began

#### Typhoon Threat Forces U.S. to Evacuate Base

HONOLULU - Under threat from the typhoon designated Keli, the top-secret U.S. military base on Johnston Island in the central Pacific was evacuated Monday. It was facility, where tons of mustard gas and other chemical weapons are stored, has been left unguarded, officials said.

Two C-141 transports carried the 370 evacuees to Honolulu. 715 miles (1,150 kilometers) to the northeast, as the storm, with winds of 115 miles an hour, moved steadi-

debating how to apply decisions neighborhood groups, mainly in made at Vatican Council II in slums and rural areas, were formed 1962-1965, which called upon the to discuss basic social and political church to modernize its mission in the Third World.

The challenge of developing a church more responsive to the political and social realities of Latin America — a region of great con-trasts in wealth and poverty, with dictatorship the prevalent form of government — led to the development of the theology of liberation.

Its central concepts include beliefs that the church has an foption in favor of the poor," and that salvation is achieved not only through faith and the sacraments but also through actions that improve the human condition

Church progressives scored several victories at the Second Latin American Conference of Bishops in 1968 in Colombia. The option in favor of the poor became a church guideline. The Mass in the vernacuar was accepted. And the organization of lay groups, in a region with a chronic shortage of priests. was encouraged.

In some countries, the lay organizations took the form of cell-like moderately progressive Brazilian communities in which Catholic church, which has 300 bishops and

problems with religious guidance.

At the same time, the progressive clergy were organizing in groups that were increasingly in conflict with their bishops, who were generally more conservative, and with the papal nuncios, who represent the Vatican abroad. Before long, many of the highly

politicized progressive groups were disciplined and left the church or became isolated minorities. The victory of the Sandinist rebels in Nicaragua, and the emergence there of a decidedly pro-Marxist clergy, has caused the Vatican to resume its hard-line approach. Since John Paul II became head

of the church, with his strong anticommunist views and insistence upon strict adherence to church authority, the conservatives have been pushing for a showdown with the progressives. Father Boll, 46, a persistent crit-

ic of the traditional church in Latin America, seems to be a perfect target. He is widely respected in the

is the largest national body in the Roman Catholic world. He is a member of the editorial board of Concilium, a major theological magazine that represents the progressive Catholic clergy in Western Europe, the United States. Africa

and Latin America. And he is a prolific writer. His published works include "Church, Charisma and Power," "Faith on the Periphery of the World," "The Religious Life and the Church in the Process of Liberation" and "The Church's Pilgrimage with the

Oppressed."
The clergy here are concerned that a Vatican disavowal of Father Bolf's writings could generate even greater discord over the theology of liberation and its application in Latin America.

Gilberto Gorgulho, an adviser to Cardinal Paulo Arns, archbishop of São Paulo, said, "Cutting off this form of pastoral reflection would remove the living branch on which Latin American Christianity now stands. A document condemning the theology of liberation would be used by the powerful to legitimize a form of society that excludes the poor, and kills.

# By the Sea: A Blend of Art, Architecture

By Suzanne Muchnic

Los Angeles Times Service

OS ANGELES — A Federal
Express man who delivered a package to the home of Carol and Roy Doumani was so boggled by their big white house on the Marina sula that he later drove his wife across town to see it.

Once the Doumanis put up banners for a party and eager house hunters trooped in to "see the

When the Doumanis open the vast window of their living room they can sit on a ledge overlooking a wide stretch of sand that disappears into the sea.

Designed by Robert Graham, a artists' functional artwork, the Doumani house is a surprising

merger of art and architecture. The stark, white, rectangular structure has dark, grid-framed windows, long mosaic pools flanking its entrance and sprightly metal grillwork running around it.

Inside, space is enclosed by high ceilings but rarely interrupted by walls. Stair-step and grid motifs articulate borders, while windows frame a changing parade of sea-scapes and beach scenes. The firstfloor interior is punctuated by Graham's bronze figures perched high on pedestals. Rooms on both levels are enriched by other artists' functional creations.

It shouldn't work; everyone knows that artists are not architects and that if you set them to laboring on the same project, it will be de-stroyed by colliding egos.

Not at the Doumanis' house.

Their habitat is a compatible collection: architecture and figurative sculpture by Graham; inlaid-wooden kitchen and dining room cabinets, mosaic pools, engraved-glass balustrade and metal grills by Billy Al Bengston; stained-glass windows and fresco by David Novros; metal-collage door by Tony Berlant; trompe l'oeil mural by Terry Schoonhoven, and roof-deck nosaic by Joanna Pusette-Dart.

You have to look hard to find anything that isn't custom-made, and then it may turn out to be a typewriter, a coffee maker or a faucet. "We don't buy existing things," Carol Doumani said, "Our point is to create something special."

The house, a continuing project that may never be finished, was begun in 1978 when the Doumanis met Graham at an unveiling of one of his sculptures.

"I liked his work very much, so I asked him to do a piece for the house we were planning to build," Roy Doumani said. "He called a American tour. The rock singer told a crowd Friday night, "I'm an entertainer and I will always be an couple of days later and said he'd entertainer, but I don't know what like to have dinner. When we met he said he'd like to carry the project shape it will take in the future."

a step further. I asked if he wanted to be part of the discussions with our architect. He said, No. I want to design the house."

Initially, the Doumanis were

flummoxed by Graham's proposal.
"We knew this was going to be our
primary residence. Our hearts and souls were going to be in it. It had to work for us," said Carol Dou-mani. "Bob felt that too much art had become overwhelming and impersonal. He said, 'Let me design a living space for you.' In his mind, we were going back to the Renais-sance. He said, Til design to your specifications and your needs and call in other artists to help."

"Nothing was easy," Roy Doumanie said. The artists were happy sculptor, and made livable by other to challenge themselves, but electricians and plumbers were less adventurous. "The workmen would say, 'You can't do this.' Now that is the last thing to say to me. It's just not acceptable. Everything was custom-done. Sometimes it took 20

One of the most appealing aspects of the Doumani house for Graham was that art and architecture were not considered separate entities: "A lot of buildings have art budgets, as if the building weren't art. The Doumani house just had a budget." The house is a showplace, visited

by art groups from museums and schools, and the site of social affairs. It is also a place to be lived in.
"We don't make a pretense of having it be a roped-off thing."
Carol Doormani said. "When you're living with functional art, things will be damaged. That's O.K."

#### **FUTURES AND OPTIONS**

#### **Erosion of Futures Prices Answers Managers' Prayers**

By H.J. MAIDENBERG

New York Times Service EW YORK - The steady erosion of futures prices in recent months has been a welcome bonanza for most investors and managers of commodity funds, for it provided them with what all futures traders pray for —

As measured by the Commodity Research Bureau index of futures prices, which uses 1967 as a base of 100, the index peaked this year at 284.2 on May 21, and then steadily sank to a low of 249.4 on July 31. Last Friday, the index closed at 257.5.

For months before futures prices began their decline, most funds and individual investors had seen their capital eroded by brokerage commissions as they tried to get on the right side of

Gains were produced

by "trend followers

who were short just

about everything."

markets that were basically trendless. Indeed, in July, when the decline in futures prices accelerated, the commodity fund and managed accounts operators enjoyed their best month ever.

Jay Klopfenstein, president of Norwood Securities, a Chi-

cago brokerage house that does not trade futures but keeps track of them as part of its research, said:

"Collectively, the 63 public commodity futures funds we monitor increased their assets by a record 16.1 percent in July, compared with a decline of 9.3 percent in June. Comparisons with 1983 are not valid because there were fewer funds operating then. But the gains raised the assets of the 63 funds this year by 14.3 percent, as of July 31."

Mr. Klopfenstein said the trading gains were produced by "trend followers who were short just about everything, starting in June." He noted that the largest profits were made from short positions in foreign currency futures. "The currency futures chart followers ignored all talk about the dollar's imminent weakness and kept celling the foreign currency future." and kept selling the foreign currency futures," he added.

But to lan G. Somerville, president of Johnson Matthey Asset Management, a subsidiary of the giant London-based commodity trading organization, neither the record 16.1-percent gain for the funds in July nor the 14.3 percent for the year to July 31 was

"We don't operate futures funds, but the assets of our managed accounts grew by 67 percent in the first seven months, despite the horrible trendless markets we had before June," Mr. Somerville said. That "was good, considering that our accounts were down 5 percent for the year as of June 30."

HE main reason why Johnson Matthey does not offer participation in public funds is that it believes they are difficult to manage. As the marketing manager. Bruce Nelson Terry, explained:

Public funds range in size from \$5 million to \$30 million, which makes them awkward trading vehicles in markets that are still for the most part small affairs. By small, I mean that even in the most active markets it is difficult to move several thousand commodity contracts at once without making waves."

Aside from "trying to push an elephant into a phone booth," Mr. Terry said, the biggest loss experienced by both funds and managed account operators is the brokerage commissions. "When markets are trendless, it often pays to just stand aside and invest the customer's money in Treasury bills or some other liquid money instrument," he said.

Burt Kozloff, vice president-marketing at Johnson Matthey & Wallace, another subsidiary of the company, offered another view of managed accounts:

"We look upon a managed futures account as a form of insurance for people who have most of their capital in stocks and bonds. In such cases, prudence dictates that roughly 10 percent of any portfolio should be in futures. Because most managed accounts and funds are liquidated when their assets fall below 50 percent of the original investment, the maximum loss on this insurance policy is about 5 percent.

To make such insurance worthwhile, Mr. Terry said, a minimum of \$50,000 should be placed in a managed account because most such accounts usually keep about half their assets in

# Treasury **Sets Rules** For Bonds

Foreigners to Get U.S. Anonymity

WASHINGTON — The U.S-Treasury Department on Monday outlined rules governing its plans to issue new securities to attract foreign capital and help reduce the government's borrowing costs. The rules contained a registration plan allowing foreign purchasers to buy some securities anonymously.

The documents, to be published early next week, provide technical guidance on legal points related to the new securities. The offerings were announced last Thursday by Treasury Secretary Donald T. Re-

The Treasury said Monday that \$1 billion to \$2 billion of the four-year note auction scheduled for late next month would be made available to overseas purchasers in a

special registered form. The special registration will allow foreigners to buy certain U.S. securities without disclosing their names to the U.S. government.

Under the Treasury regulations, banks and other institutions must certify that any buyer of the new securities is not a U.S. citizen or

The regulations, prepared by the Internal Revenue Service, also include a request for comments on vhether securities backed by the Treasury should be allowed to be sold in bearer form. Comments will be accepted for 30 days.

Last Thursday, Mr. Regan said at a press conference that investment firms that had already repackaged Treasury instruments to resell overseas in bearer form will not be stopped from doing so. A bearer bond gives the purchaser

# China to Build Bank in Hong Kong

#### I.M. Pei Designing Tower, To Be Territory's Tallest

By David R. Schweisberg

United Press International
HONG KONG — China has announced plans for a 70-story bank tower in Hong Kong, to be designed by I.M. Pei, the American architect. It will be the territory's tallest building and a symbol of the modernization of China, which will take control of Hong Kong in 13 years.

The futuristic, angular skyscraper will be the new headquarters for the Bank of China, Beijing's state bank. It will be located in the Central business district

ness district.

Chinese officials put the budget for the tower at \$125 million, about the same price Beijing paid for the site itself. Some Hong Kong builders said the estimated construction cost appeared to be surprisingly low for the design.

Mr. Pei, at a news conference Saturday with the

officials, said builders would begin pouring the foundation and granite base next February. The tower is to be completed by the spring of 1988, he

China is planning to take over Hong Kong in 1997, after about 150 years of British rule. The building will house the financial center of its oper-

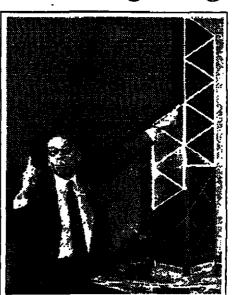

"The bank gave us no preconditions for design," said Mr. Pei, a Chinese-American who is one of the

world's most prominent architects.

"But the architect cannot be totally oblivious to the fact that this building is for an important Chinese institution and should express the philosophy of the country," he said.

Mr. Pei said he had sought to reflect China's modernization drive in the futuristic design of the

He said the design's most noticeable features, the gleaming metallic braces, were being used for the first time on such a large scale.

I.M. Pei with a model of the proposed headquarters for the Bank of China.

The diagonal braces over the tower's glass exterior are designed to keep the structure safe from

Another innovation is an open. 15-story atrium that will rise to a skylit garden, Mr. Pei said. "It will have spectacular space," he said. "And it

will have the best view in Hong Kong." The bank will supplant the 66-story Hopewell Center as Hong Kong's tallest building. It will dwarf the nearby 41-story headquarters of Hongkong & Shanghai Banking Corp., which was designed by a leading British architect. Norman Foster.

# U.S. Economy **Grew by 7.6%** In 2d Quarter

By Jane Seaberry B'ashington Post Service

WASHINGTON — The U.S. economy grew at an annual rate of 7.6 percent in the second quarter, with an inflation rate of 3.2 percated that the economic recovery rapid growth than expected. may be the strongest since the Ko-

The increase in second-quarter gross national product, adjusted for inflation, was revised upward from the preliminary estimate of 7.5 percent. Growth in the first quarter was 10.1 percent, the Commerce Department said.

GNP is the total value of a na-

tion's output of goods and services. The revision reflected personal consumer expenditures that were higher than had been estimated. increased business investment and

an improvement in net exports. Residential investment, reflecting a slowdown in the housing industry, was revised downward, as was inventory investment by busi-

Earlier this month, the Reagan administration revised upward its forecast for economic growth this year, to 7.2 percent from 5.9 perThat revision was based largely on first-half growth that exceeded

The administration did not change its forecast for the second half of the year, and some private cent, the Commerce Department economists now say that the final reported Monday. The report indi-

> "Consumer spending and busi-ness investment are feeding on each other, pushing economic growth in the second quarter," said Jerry Jasinowski, chief economist for the National Association of Manufacturers. The third quarter, he said, may still show 6-percent growth because inventories are below nor-

> Mr. Jasinowski said the only weakness in the economy is "in international trade, which continues to be a disaster.

The increase in the second-quarter gross national product reflected an 11-percent gain in final sales, compared with a 3.6-percent increase in the first quarter.

However, business inventory investment declined. That area had helped fuel the sharp advance during the first quarter.

The Commerce Department also reported that corporate after-tax profits rose 1.5 percent during the second quarter, after rising 6.8 percent in the first quarter. Profits declined 1.1 percent in the fourth quarter of last year.

#### Yamani Sees Sharp Upturn in Fall Oil Demand "The trade's perception, which changed over the last week or so

NICOSIA — The Saudi Arabian oil minister, Sheikh Ahmed Zaki Yamani, has predicted a sharp up-turn in international demand for Middle East Economic Survey re-

ported Monday.
In an interview with the weekly oil journal, which is published in Cyprus, Sheikh Yamani also said the Organization of Petroleum Ex-Brothers & Co. led a group of firms porting Countries may consider an increase in production this autumn. "We expect that the last quarter

of this year will witness an increase in oil consumption and demand which will raise OPEC's share of the crude oil market to 19 million barrels per day or more," Sheikh Yamani said. He said an extraordinary OPEC

ton arrangement, meeting would be advisable in the Treasury regulations also second half of October if it seemed million barrels a day or more. "In that case, we should meet to

raise our ceiling and individual Survey quoted him as saying. "That member countries increase production illegally, so to speak."
Sheikh Yamani estimated that

total OPEC crude production averoil by the end of September, the aged 17.8 million to 17.9 million barrels a day in July, and he ex-pects that this month, it will fall below 17.5 million, the organization's ceiling.

Sheikh Yamani's statements contrasted sharply with those made last week by other OPEC oil minis-ters, who said they were prepared to reduce production quotas to prevent a decline in oil prices. Shaikh Yamani told the oil re-

benchmark price of \$29 a barrel for Saudi light crude could be main-He attributed the improvement in the market outlook to falling

production in Saudi Arabia and He said Saudi crude oil production had averaged 4.2 million barday if not a little bit less" in Au-

Iran's oil output is believed to have fallen to less than 2 million barrels a day in August, compared with 2.5 million barrels a day in June and July, the newsletter said.

North Sea output is also likely to decline, as fields are shut down for maintenance work in August and September. British fuel oil demand is still 300,000 barrels a day higher than normal because of the coal miners' strike, the journal said. "We expect that the last quarter

of this year will witness an increase in oil consumption and demand which will raise OPEC's share of the market to 19 million barrels a view that he was sure that OPEC's day or more," Sheikh Yamani said. Therefore, with a certain degree

of restraint on the part of both OPEC and non-OPEC producers, we will definitely be able to support the present level of prices and avoid any unnecessary deterioration." he

In New York, analysts agreed rels a day in July, and is expected to that an overestimation in July outfall to "about 4 million parrels per put had led to a firming in spot crude prices. But opinions in the

Mr. Baskin said firm prices were likely over the short term, although there were several factors that could "take the steam out of this firming trend." Mr. Baskin also said that output had been reduced in August by the decline in Iranian production, and

Over Redemption
Of WPPSS Bonds

By Michael Blumsrein
New York Times Service
NEW YORK — More than a strington Public Proled on

Washington Public Power Supply System defaulted on \$2.25 billion of its bonds, in the largest municipal bond default in history, holders of the securities are still a long way from collecting any interest payments, much less their principal.

Holders of the supply system's 56 billion of other bonds—those sold for Plants 1, 2 and 3—are still safe, although a pending lawsur, has a pending lawsur, has not been wantling over fueled fears of protracted legal wrangling over the repayment of those bonds, too.

A decision by the highest court of Washington State led to last summer's default on the

\$2.25 billion in bonds the supply system had sold for Plants 4 and 5 between March 1977 and March 1981. Four months after the last bond sale, in the face of huge cost overruns and a declining demand for power, construction on the plants was halted. Local utilities had signed "take or pay" contracts obligating them to repay the bonds even if the plants never produced any

But the state's Supreme Court ruled that the utilities did not have the authority to sign such contracts. The supply system subsequently defaulted, missing its first interest payment last Jan. 1, and the bonds fell in value to 14 to 17 cents on the dollar.

The plants that were to have been built with

the \$2.25 billion are being partly disassembled, and some of their parts have been sold for \$10.3 million. At the same time, complicated lawsuits to recover bondholders' money are in the research stage, with trials not scheduled until December 1985.

The bonds for the Plants 1, 2 and 3 still trade near face vaine, but fears for their safety have been raised recently because of a decision ex-pected soon from the United States Court of Appeals for the Ninth Circuit in San Francisco.
On May 11, that court heard arguments on a suit challenging the validity of contracts, that more than 100 utilities in the Pacific Northwest signed. These contracts guaranteed, in effect, that the utilities would repay the money bor-

rowed for the three plants.
The federal District Court in Portland, Oregon, has already ruled the contracts were valid. But if the appeals court were to disagree, it could lead to hitigation over whether the Bonne-ville Power Administration, a federal agency that sells power to utilities throughout the Northwest, can take direct responsibility for

repaying the bonds.

"The question would be: Is anyone responsible for the cost of the project?" said John Britton, a spokesman for the supply system.

To date, the Bonneville agency has indirectly subsidired the utilizies that are paying for the

subsidized the utilities that are paying for the three plants. When the utilities pay the supply system for the plants' construction, their bills for electric power from Bonneville are reduced by an equal amount.

Bonneville is now making contingency plans

in case the appeals court overturns the arrangement. Should that happen, Bonneville wants to take over the utilities' interest in the auclear plants and pay for the plants directly.

After five months of delays because of questions are plants and pay for the plants directly. tions from some members of Congress, the supply system's executive board is scheduled to

supply system's executive board is scheduled to consider the plan next Friday.

According to a Congressional aide who follows the issue, however, some lawmakers on Capital Hill and in Washington State are not certain the Bonneville agency or the supply system have the legal authority to enter into the new arrangement. If a challenge to the agree-

ment were filed and litigated successfully, default on the bonds could follow. "Bonneville and the supply system have

stoutly maintained that they have the authority" to enter into this new agreement, said Cyrus Noe, publisher of Clearing Up, a newsletter that follows the supply system. But serious reservations, he noted, have been voiced by Representative Jim Weaver, an Oregon Democrat.

In the case of the bonds for the Nos. 4 and 5 plants, the Chemical Bank, which represents the bondholders as trustee, is asking the Washington State court to reverse its decision. Few analysts expect it will do so, and the bank has already said it is ready to appeal to the United States Supreme Court on the ground that bondholders' property was taken without due process.

# Disney Ends Gibson Greetings Offer, Says Move Aims to Quell Dissension

By Thomas C. Hayes New York Times Service

LOS ANGELES — Walt Disney Productions, which reversed itself Friday and canceled a \$300-million plan to buy Gibson Greetings Inc., said over the weekend that it made the move to try to quell dissension on its board and to erase the pros-

pect of a shareholder fight. But according to some analysts, the move seems likely to invite other bidders onto a stage already crowded with powerful, warring

#### Nixdorf Sales Rose 20% in First Half

By Warren Getler

onal Herald Tribune PADERBORN, West Germany -- Nixdorf, the West German data processing company, reported Monday a 20-percent increase in world sales for the first half of 1984 to 1.26 billion Deutsche marks (\$433.57 million) from 1.05 billion DM a year earlier.

The company, which placed 20 percent of its capital on the market in June, attributed the rise to strong demand for Nixdorf computers and software among financial insti-

It said it expects 1984 results to show an improvement over last year, especially if orders, which were up 19 percent to 3.17 billion DM in the first half, continue at their robust pace. Group profit last year was 93.65 million DM on sales of 2.7 hillion DM.

#### Rémy Martin To Buy Nicolas

PARIS - E. Rêmy Martin & Cie., one of France's leading cognac makers, has announced that it will acquire a majority share in the holding company that controls Nicolas, a wine

and spirits group.

Rémy Martin said last weekend that it will take control of La Gestion Mobilière, which holds 40.17 percent of Nicolas, by subscribing to a capital in-crease of 17 million francs (\$1.9 million), which shareholders are expected to approve in Sep-

Nicolas, a retail chain specializing in moderately priced wines and spirits, had a group loss of 44.20 million francs in 1983, after a loss of 21.8 million

Last February, Remy Martin acquired a minority stake in La Gestion Mobilière, but declined

ings caused the cancellation of a now to be perceived as either weak a group led by Irwin L. Jacobs, directors. which had acquired 6.9 percent of Disney and opposed the bid for Gibson.

On Friday, Mr. Jacobs told Raymond L. Watson, Disney's chairman, that he was "very pleased" by the Gibson Greetings decision, But Mr. Jacobs is not expected to be a passive investor.

Moreover, Disney's management, which paid \$325 million in June to end a takeover threat by Saul P. Steinberg, is more likely

Nixdorf would not provide details of earnings for the first six months, but an analyst at a Düssel-dorf bank said Nixdorf's profit

could show a 20-percent increase at Nixdorf stock closed Monday at 506 DM, up 5 DM from 501 DM Friday, on the Frankfurt Stock Ex-

The company said it had raised 556 million DM through its public offering in early June of nonvoting preference shares having a face val-ue of 72 million DM. Before the listing, Nixdorf's chairman, Heinz Nixdorf, had said he would be satisfied if the sale raised 500 million DM as a source for imancing fur-

ther expansion. An employer of 17,500 workers worldwide, Nixdorf reported it created 1,400 new jobs over the first half of this year, mostly at domestic

court challenge set for Monday by or handcuiled by a split among its

"Once again, it looks like they are caving in to blackmail," said Lee S. Isgur, an analyst with Paine Webber Inc. This company is going to continue to be very, very vulnerable to threats from the out-

He added: "I cannot believe that Jacobs is going to sit there quietly, not saying or doing anything for the next year or so as Disney goes about its business."

Mr. Jacobs was quoted in a published report on Saturday as saying that he was "leaving all my options open now." Thomas M. Cooney, president of

Gibson Greetings, indicated in a prepared statement that Gibson was weighing a court challenge to Disney's decision not to complete the purchase, which was set to close on Wednesday. "It is regrettable that the Disney

board acceded on Friday to the emands of Irwin Jacobs." he said. Disney, in a prepared statement, described Friday's decision to abort the offer as "totally consistent with the best interests of all stockholders,"

Gibson, with headquarters in Cincinnati, ranks third after Hallmark Cards and American Greetings in producing greeting cards

and gift wrap.
Sales have doubled, to \$240.6 million, and profits increased by five times, to \$22.4 million, in the past four years, Mr. Cooney said in the statement.

#### BP Has No Hope Of Finding Big China Sea Field

صكذا من الاعل

LONDON - British Petroleum Co. has given up hope of finding a major oilfield in the South China Sea, but will continue its drilling program, according to the BP deputy chair-

man, Roger Bexon.

Mr. Bexon, in an interview published Monday by the Financial Times, said BP would benceforth devote its attention to secondary targets. The com-pany has drilled five wells on what appeared to be prime prospects, but no marketablesized concentrations have been found since drilling started last December.

Mr. Bexon said BP is "starting to look at targets more related to the source rocks." These, he said, might yield oil in "smaller, deeper and rather more subtle" quantities than had been envisaged for the larg-

BP has spent \$53 million on the China project, including \$14 million on pre-drilling ex-penditures. The figures are slightly less than had been expected, though this partly reflected the early abandonment of unsuccessful wells, the Financial Times said.

The oil industry, including BP, has drilled about 15 dry holes in the South China Sea. But Mr. Bexon said 33 wells were drilled before commercial oil was found off the coast of

# Atlas Copco Sees Big '84 Profit Rise

By Juris Kaza

International Herald Tribune
STOCKHOLM — Atlas Copco AB, the Swedish maker of mining equipment, air compressors and tools, said Monday that its 1984 pretax earnings would almost double, to about 500 million kronor, from 253 million in 1983.

In an interim report, the company said that pretax profit in the first half of 1984 had totaled 287 million kronor (\$34.5 million), a 94-percent increase over the 148 million kronor in the first half of 1983. The group president. Tom

Wachtmeister, attributed the improvement to "ongoing rationaliza-tion measures." He also said that interest expenses and foreign exchange losses had been reduced. Atlas Copco sales rose 7 percent

in the first half, to 4.24 billion kronor, the company said. It predicted

The sharpest earnings rise. Atlas Copco said, was in Airpower, its largest division.

Pre-tax profit in Airpower nearly tripled to 217 million kronor, from 74 million kronor in the first half of 1983. Sales totaled 2 billion kronor, up 14 percent from a year earlier. while orders were up 16 percent to 2.19 billion kronor.

However, the company's second largest division, Atlas Copco MCT, which markets rock drilling and mining equipment, reported a 78percent drop in earnings, to 8 million kronor from 36 million kronor in 1983. Sales fell 2.4 percent, to 1.52 billion kronorfrom 1.56 billion kronor a year earlier.

The decline in that division, Mr. Wachtmeister said, resulted from "continued low demand for metals." This, he said, made mine operators "cautious about making new flightfor the full year, sales would investments." But he predicted that increase 11 percent, to 9 billion demand for mining equipment kronor, from 8.09 billion kronor in would increase for the remainder of 1983. Orders totaled 4.69 billion 1984, and he forecast improvement tronor, up 13 percent from a year in the building and construction

Mr. Wachtmeister said that new technologies offered by the Airpower and MCT divisions were selling well.

In Airpower, he said, "there was a striking increase in sales of oil freeze screw compressors." A new rock stabilization system

used to anchor structures was also selling well, he said. Analysts said that the predic-tions of an earnings rise would have only a limited effect on internation-

al trading of Atlas Copco shares. Brian Knox, a specialist in Scandinavian securities at London's Grieveson Grant, said the earnings forecast was in line with what he had predicted for Atlas Copeo six months ago. "I'm not going to dance on the desk," he said of the

Treasury bills and other liquid short-term instruments as a precaution. But his company accepts as little as \$15,000, provided the investor is a member of a pool of no

more than 35 investors. "While trading large amounts of futures can be dangerous, trading small sums can only add to brokerage and other costs," he added.

Mr. Somerville interjected: "The leverage factor is what makes or

breaks you in the futures market and many people forget that the leverage factor is based not on the value of the underlying goods, but on a thin margin."

Futures margins, which are really good faith payments to bind a contract between buyer and seller, usually run at 5 percent to 10 percent of the value of the underlying goods or financial instruments. Because they are so small, any adverse move in the market, Mr. Somerville said, can provoke costly liquidation of contracts or a favorable move could just as quickly produce large

Consequently, he added, the art of prudent futures trading is to avoid markets that are trendless because even the dullest of them can produce brief price "spikes" that either whipsaw traders out of their investment or at best provide limited and momentary gains. which are often erased by broker-age commissions and other trading

#### Japanese Surplus In Trade Narrows

TOKYO - Japan's customscleared trade surplus narrowed sharply to \$372 million in the first i() days of August, compared with a \$1.02-hillion surplus in the equivalent July period. Japan recorded a 5356-million surplus for the period a year earlier, the Finance Ministry

Exports in the first 10 days of August rose 24.1 percent from a year earlier to \$4.59 billion, after a 17 8-percent year-on-year increase in the July period, the ministry

Imports in the August period in-creased 26.2 percent from a year earlier, to \$4.22 billion.

# Price Erosion U.K.'s GDP Fell 0.4% in 2d Quarter

LONDON — Britain's gross do-mestic product on the basis of output fell 0.4 percent, seasonally adusted, in the second quarter from the previous quarter, according to preliminary figures released Mon-day by the Central Statistical Of-

In the first quarter, GDP rose 0.2 GDP for the second quarter was put at 2.5 percent above a year

GDP is the value of a nation's

The statistical office estimated that the coal miners' dispute reduced GDP by about 0.5 percent in the first quarter and about 1.25 percent in the second quarter. Most of the reduction was attributable to loss of coal output.

The miners started their strike in the middle of March, but before that they had been refusing to work The statistical office said the 2.5-

total output of goods and services, excluding income from invest-ments abroad.

percent year-to-year increase in the second quarter parily reflected the low level of output a year earlier.

"Although allowance for the effect of the miners' dispute gives an increase of 3.5 to 4 percent over the period, underlying growth has probably been somewhat less," it

The Treasury has forecast a 3-percent rise in GDP in 1984 on an average of the output, expenditure and income bases, but the chancellor of the exchequer, Nigel Lawson, has said that might not be achieved because of the miners' dispute.

BONN — Poland's Roman
Catholic priruate, Cardinal Jozef Glemp, has proposed a German-Polish church commission to establish the needs of the German-speaking Roman Catholic community in Poland. In a letter to the chairman of the West German bishops' conference, Cardinal Joseph Höffner, Cardinal Glemp said that, although recent demands for German-language church services had come from outside Poland, they merited careful consideration. Joseph Madison, director of the rights group's voter registration efforts and the march originator, said Sunday that a core group of about 25 marchers would walk and ride the route through northern Virginia, Washington, Baltimore, Philadelphia, and Camden and Newark, New Jersey, and and up in New Jersey.

significant actions, grand questions, and prin-cipal personages of Israel's story to the destruction of Jerusalem and the Temple in A.D. Recent archaeological excavations and, of course, the Bible, provide Grant with both factual and theological data. After discussing the historical facts — Was there an Exodus? Did the Red Sea part? Did the walls of Jericho come tumbling down? - Grant concisely summarizes the events and thoughts recorded in the Bible. Whether the supernatural interventions occurred, Grant affirms, is not for the student of history to say: a history most likely succeeds if "its author . . . endeavors to for-get whether he himself is a Jew, Christian, Moslem, Buddhist, Hindu, agnostic or atheist slem, Buddhist, Hindu, agnostic or atheist - if, that is to say, he avoids presuppositions or conclusions based upon his own beliefs or

THE HISTORY OF

ANCIENT ISRAEL

T N "The History of Ancient Israel," Michael I Grant escorts his reader — at times even

shoves him, so brisk is the pace — through

4,000 years of history in fewer than 300 pages.

Concise and informative, frequently vivid and

dramatic, Grant's pithy survey highlights the

Grant strives to present an objective, general picture. Indeed, one often wishes Grant would slacken the pace so that the reader might have the time to savor the action, to mull over leisurely the theology so trenchantly encapsulated. What Grant has to say about Moses, Saul, David, Isaiah: his remarks on various Biblical historians, on the uncanny Book of Ezekiel and the Book of Job - all invite the reader to reflect.

Though Grant's method is chiefly narrative, nonetheless, in a story as awe-inspiring as that of the ancient Hebrews, several unavoidable themes emerge, merely from the rehearsing of events, from the very telling of the biblical chronicle. One persistent theme, Grant admits,

is the "perpetual coexistence and confrontation, among the people of the Bible, of two diverse and apparently opposed points of view concerning foreigners. That it was unique among the nations from the time of the Exodus, Israel knew. Its laws and rituals served to maintain that sense of separateness. Yet, as its theology developed, Israel also began to sense that its fate was linked to that of others. After the dissolution of the Kingdom, Isaiah was certain that the deity "was not any god of their own but Yahweh himself. And by the same token the Golden Age that lay in the future would extend to the whole world." The move-

Par Par Par

The state of the s

Another motif, an intimate part of this growing universalism, is the survival of Israel and of mg universatism, is the survival or israel and of monotheism. Somehow, amazingly, though conquered, even enslaved, by Persians, Greeks and Romans, through all the vicissitudes of history, the ancient Israelites survived — even, one might say, prevailed. And with them the central revelation that there is one God, a god who belongs not to the soil or to the weather, but a "God of the people, and of the linear," progressive movement of history, which unfolds His purpose."

ment is from narrow nationalism to universal-

Concerned with ancient Israel, Grant makes few references to the modern state, founded in 1948. Still, in the story of the old is hidden that of the new: "Modern Israel is only comprehensible in the light of how its inhabitants acted, and what happened to them, throughout all the centuries of the past, and particularly throughout the ancient world."

Having already written of the Greek and Roman world, with this volume, Grant completes his survey of the major influences on western civilization. As an introduction to israel's history and to the Bible, Grant's vigorous narrative and cogent analysis incite the reader to return to the Bible. Read Grant, and then with a more profound understanding, read the source, the Hebrew Bible, "the Old Testament of Christians, which has inspired the literature and art and ethics of half the world."

Lee Trevino got a big hug from his caddie after winning the PGA Championship.

# Trevino Hangs On to Win PGA Title by 4 Strokes

By Mark Asher
Washington Post Service

BIRMINGHAM, Alabama After it was over, after he made his final birdie and won the 66th PGA Championship Sunday by four strokes, 44-year-old Lee Trevino puckered up, raised his 3-week-old

putter to his lips, kissed it once and

then again.

From the first hole, where he made a 50-footer for a birdie and got his confidence for the round, to the middle holes where he saved par four times to stay in contention, it was the gritty man, not the putter, who won the \$125,000 first

prize at Shoal Creek. The final margin — 69-273, a PGA Championship-record 15 under par — will show a four-stroke victory over Lanny Wadkins (72-277) and Gary Player (71-277). But, as late as the 16th hole, Wadkins could have taken the lead if Tre-

women's shot put, won that event with a toss of 67 feet, 1½ inches

(20.46 meters), beating Claudia Losch, the West German Olympic

gold medalist, whose best throw Sunday was 65-04. Her winning

Carl Lewis glided to an effortless victory Monday in his first 100-meter race since the Olympics,

United Press International report-

Lewis, who won four Olympic

range some 50 feet from the pin. He three-foot circle around the hole.

"I could have three-putted very easily, and I ended up making the putt," he said. "And if I had threeputted. I probably wouldn't have won. It would have really shaken me up a little bit coming off a double bogey on the final hole yesterday and starting with a threeputt bogey today."
Instead, it was first Player and

then Wadkins who three-putted themselves into trouble. Going to the back nine, it appeared Trevino was the shaky one. Wadkins had just made a 15-

footer on the 428-yard ninth to take a one-shot lead over Trevino, Player was coming off successive birdie putts of 15 and 60 feet to pull within two strokes of the lead.

Wadkins also said that a oneBut Player, the 48-year-old
hour rain delay had a big effect on South African who insists age is a mental factor, three-putted on the 10th hole and walked off the green course. Trevino said the delay did like a 68-year-old. Two holes later, not affect his bad back because he after making a bogey trying to hit the ball too hard on the par-5 11th. Wadkins also three-putted. He had After kissing his putter twice, a 35-foot first putt, but left it six Trevino embraced his 26-year-old feet short ("Misread it; thought it wife, Claudia, collected the win-was more downhill," he said later)

"He needed to make the putts he knew he could win on a PGA Tour needed to make on the back nine that had not yielded him a victory and I didn't," said the 34-year-old since the 1981 Tournament of Wadkins, \$62,500 richer nonetheless, even though he hit three wild "It feels great," he said. "When drives and another in the rough on

for that stretch, but he could have been much, much worse.

On the par-3 lifth, he needed to range some 50 feet from the pin. He said he was not trying to make the At the par-5 sixth, a good birdie hole, he made a sand save to striking range and did the same thing on the ninth. Trevino has been shooting at every pin in creation and it got him in trouble at the 12th. where he escaped by making a 20-

footer for par. On that hole, he tried to choke up on a seven-iron and play short of the water guarding the green. But he pulled the ball into rough so thick that he had to aim 20 yards backward to make sure he got out of it. From there he pitched on and made the putt.

Trevino's par and Wadkins's bogev left them tied at 13 under, with six holes to play. Trevino went a stroke ahead when Wadkins threeputted the 12th, "It felt like we kept putting heat on each other back and forth today." Wadkins said.

And it was not over yet. Trevino birdied the 14th hole from eight feet for a two-shot lead, and Wadkins answered that with a six-foot birdie putt on the 407-yard 15th. That brought the final threesome. who played the last 36 holes together after sharing the lead at that point, to the decisive 16th.

There, Trevino made his most dramatic par-saver of the tournament. Experience had beaten a You ask the golfers on the tour who has the most guts, and 95 percent will tell you Lanny Wadkins," Trevino said. "He'd use a driver if the green was on a pontoon.

Trevino said he expects to keep winning on the tour until he's in his 50s. "My new wife told me I'm not when you're old, the inevitable is the middle holes exceptionally well. too old to play, and she said. 'Your over with. You don't know whether scoring 10 under par for three clubs don't know how old you

straight triumph,

MOSCOW - Jens-Peter Berndt East Germany set a European cord in winning the men's 400eter individual medley swimming vent at the Friendship '84 Games ere Monday, clocking four mintes, 18.29 seconds.

Berndt held the old record of :19.61. His new mark would have iven him a silver medal at the Los ingeles Olympics, behind Alex laumann of Canada, who set the rorld record of 4:17.41.

Three cyclists set world indoor ecords on Sunday and three swimners beat medal-winning times from the Los Angeles Olympics.

Bernd Dittert of East Germany et a world record of four minutes, 6.47 seconds in Sunday's qualifyng race for the quarterfinals of the 1.000-meter individual pursuit cy-· ding race.

Also bettering the old mark of :37.68 set in Moscow last year by Soviet Viktor Kupovets, was Rysard Davidovicz of Poland. He locked 4:36.97 only minutes beore Dittert delighted a capacity rowd of 6,000 at the Olympic sports Cycling Center in the Mos-low suburb of Krylatskoye by gone even laster.

In the 500-meter men's cycle ace, Michael Huebner of East Germany clocked 26.479 seconds, peating the previous best of 27.469 set by Soviet cyclist Alexander Panfilov. In the women's 1,000 meters, Erica Salumyae of the Soviet Union set a world mark of 1:08.24, beating her previous best of

Otto was timed in 55.75 and said Ashford was suffering from a Meineke in 55.79.

The women's 400-meter individual medley was won by Soviet champion Elena Dendeberova in 4:43.78, which would have given her a silver at Los Angeles behind Tracy Canikins.

In the men's 100-meter breaststroke, Dmitri Volkov, whose European record stands at 1:02.81, won his race in 1:03.72 - a time that would have been no better than seventh at Los Angeles. Sven Lodziewski of East Germany also would have missed a medal at Los Angeles if he had repeated Sun-day's time of 1:49.83 in the 200meter freestyle.

#### ■ Moses Ends Europe Tour

Edwin Moses, the Olympic 400meter hurdles champion, said Monday that he is calling off the rest of his European tour because he is not in form, United Press International reported from Hannover, West Germany.

Moses left the track shortly before the 400-meter hurdles race Sunday in Hannover, suffering from intestinal flu. He missed the race, but his winning streak remains intact at 105 races.

Harald Schmid of West Germany, a silver medalist in Los Angeles and the last man to beat Moses, in 1977, was victorious Sunday in 49.63 seconds.

Before leaving Hannover, Moses said: "I don't feel in form and will not compete in Zurich Wednesday, and this season I will not compete

in Europe any more." : Moses was only one of a series of dropouts and no-shows in Hennover as only six of nine scheduled Olympic winners turned out for the

Angeles Olympic Games. Officials

realistically, we need them [Padres] to get real cold to have a chance.
"We're in third and we have to keep winning. What's wrong with setting our sights on second place and going from there?" Garner hit his home run off John Candelaria, who apologized before the game for his recent criticism of the irate coach Rick Peterson, son

of Harding Peterson, the general manager. Candelaria had called the general manager an "idiot" for hiring his son and also for paying a bonus to a junior college catcher who is the son of Pirate scouting director Milt Graff. 'The only thing I'm sorry about is what I said about Rick," Cande-

laria said. "I realize who I was trying to get to - and I'm sorry." Despite giving up the game-winning home run, Candelaria was cheered by Pittsburgh fans when he was taken out in the ninth inning. Garner's home run gave Joe

Niekro (12-9) his 10th victory in 12 decisions. Niekro settled down alter giving up three runs in the first

Cubs 9, Reds 6

In Cincinnati, Pete Rose, playing in his third straight game since tak-ing over last Friday as player-manager of the Reds, had three more hits Sunday but they did not help much as Ron Cey and Thad Bosley each hit three-run homers to power Chicago to a 9-6 victory over Cinrun since July 31 and his 20th of the game-winner on a single by Ed the loss.

Astros, in Late Bid to Catch Padres,

late to catch the San Diego Padres, season. The 36-year-old third baseman also has driven in 75 runs, but the Houston Astros are hot and marking the 11th time in his career they are bearing down on second he has reached that plateau. Phil Garner hit his third home

Cardinals 8, Braves 5

In St. Louis, David Green hit an inside-the-park homer and drove in the victory, giving up four hits and three runs.

In Los Angeles, Ozzie Virgil's two-run single highlighted a four-run seventh inning that gave Shane Rawley and Philade umph over Los Angeles. Rawley (6-3), facing the Dodgers for the first time in his career, yielded only a three-run homer to Greg Brock while allowing seven hits. Luis Aguayo homered for Philadelphia.

Expos 3, Padres 0

In San Diego, Andre Dawson drove in three runs with a single and a homer, and Joe Hesketh and Jeff Reardon combined on a sixhitter to lead Montreal to a 3-0 triumph over San Diego. Hesketh, who went the first 715 innings, got credit for his first major-league decision after being called up from Indianapolis earlier this month. Giants 7. Mets 6

Mets 4, Giants 2 In San Francisco, Brad Wellman's two-run homer with one out in the bottom of the ninth lifted the Giants to a 7-6 triumph over New York in the first game of a doubleheader. Wellman's home run tagged Jesse Orosco with the loss

and made a winner of Gary Lavelle (5-4). The Mets rebounded to win the nightcan on a two-run homer by Jerry Martin, 4-2. Blue Jays 7, White Sox 4 In the American League, at Chicago. Tom Seaver was cruising along with a 4-3 lead against To-

...ailing in Hannover.

Mariners 4, Tigers 1 In Detroit, Mark Langston's three runs to lead the Cardinals to four-hit, 11-strikeout performance an 8-5 victory over Atlanta. Ricky Horton (8-2) went 54 innings for triumph over Detroit. Phil Bradley singled three times and scored twice, and Steve Henderson drove in a pair of runs with three singles. Dan Petry, who struck out a careerbest 11 for the Tigers, lost his sixth game in 21 decisions.

In New York, Ken Griffey capped a five-run eighth inning NFL Exhibition with a three-run homer, and Dave Winfield had four hits and three RBIs to lift the Yankees to a 9-6 triumph over Oakland.

> indians 8, Brewers 6 Indians 2, Brewers 1

In Cleveland, Mel Hall homered with one out in the ninth inning in the opener and scored the winning run on Pat Tabler's triple in the bottom of the ninth in the nightcap to pace the Indians to a doubleheader sweep of Milwaukee, 8-6 and 2-1. Tom Waddell got the opening victory in relief and Steve Comer (7-5) went the distance for the first time this season in the

Rangers 6, Royals 4 In Arlington, Texas, Ned Yost and Gary Ward drove in two runs each, and George Wright hit his second homer in two nights to help the Rangers win a game in which the temperature reached 113 degrees Fahrenheit (45 Centigrade) as they beat Kansas City, 6-4. Frank Tanana (13-11) recorded his third straight triumph, allowing nine hits and striking out one in 613 innings.

Orioles 10, Angels 4 In Baltimore, Rick Dempsey hit

two home runs and Gary Roenicke homered and knocked in four runs to help Mike Flanagan break a personal five-game losing streak and lead the Orioles to a 10-4 victory over California. The loss was the fifth straight for California. Flana-Red Sox 5, Twins 4 gan (10-11) benefitted from a 16-In Boston, Bill Buckner singled hit attack to gain his first victory cinnati. #### ART BUCHWALD

# Testing: 9-8-7-6-5 — '

WASHINGTON — "Mr. Pres-ident, can I have a voice level tle?" please? We go on the air in a few

pleased to tell you today that I've signed legislation that would outlaw Russia forever. We begin

bombing in five minutes." "Mr. President, you're not com-

ing through very well. What I'm getting on my earphones is that you said we were going to begin bombing the Russians in five minutes." 'You heard

me correctly. There is nothing wrong with the Buchwald

"Mr. President, you're not serious, are you?" "Of course not. It's just a joke, like 9-8-7-6-5-4-3-2-1.

"I don't know that joke." "Well, there's two guys on this American nuclear submarine and they start wondering what would happen if they both put their keys into the missile computer at the same time.

"Mr. President, you're fading on

#### Waring's Band **Cancels Concerts**

The Associated Press DELAWARE WATER GAP. Pennsylvania — Fred Waring's Pennsylvanians have canceled all concerts scheduled for fall 1984 and spring 1985 seasons because it is "too soon" to appear after the bandleader's death last month.

"We've got a lot of ideas and a lot of enthusiasm," Ruth S. Sibley, the band's general manager said. But for now, what we're trying to get across is that it is too soon to go all out." The Pennsylvanians had scheduled 50 to 60 concerts for the fall and spring, she said.

She maintained, however, that the Fred Waring Show will not just fade into history. "We have a tradi-tion and we want to make sure it stays alive as something viable and entertaining, not just a memory," she said. Waring, 84, died July 29 at the end of a youth choral workshop at Pennsylvania State University.

"How's this? I'm sick and tired of the commies turning down all "My fellow Americans, I'm my disarmament plans, I say let's nuke 'em, and get it over with. How was that?"

"Your voice was loud and clear. but I'm not sure I heard the message correctly. Did you say something about nuking the Russians?"
"I'm just having a little fun with
the mike test. We're not on the air,

are we? "Not yet, sir. But we're awfully close. Could we try it once more? Why don't you recite 'Mary Had a Little Lamb"?

"I don't know that one. How about 'Give my regards to the Kremlin, say hello to the big Red Square. Tell all the folks on Gorki Street that we will soon be there." That was good, Mr. President.

"Why shouldn't I be comfortable with the volume? Are you taping all these tests?"

Are you comfortable with the vol-

Yes, sir ' "Good, you never can tell when I want to use one. How much time

do we have? "Two minutes. Would you like to try another test?"

How's this? I never saw a mushroom cloud. I never hope to see one. But if I did I know I'd rather see than he one."

"Mr. President, I hope I'm not out of line, but do you know something I don't know?"
"How's that?"

"Well all these voice tests indicate there seems to be something on your mind. A lot of guys in the control room are calling their

"Don't be ridiculous. I'm just trying to make the voice tests more interesting. They have no right to call their wives because anything I say before my radio broadcast is off the record.

"Yes, sir. But suppose the Russians pick up on the tests and think it's the real thing?" "Just let them try it and see how far they get."

"That's not the point, sir. I think when we're going for a voice level we ought to stick to safer subjects such as Mondale and taxes."

"I'm the president and I can say anything I want to when I'm testing. It's my mike and I paid for it."

# Teddy Pendergrass: The Song Is Still Worth Singing

By Richard Harrington

GLADWYNE, Pennsylvania - Twenty minutes from Philadelphia, the roads curve through a green forest sparsely dotted with expensive houses. At the end of one long driveway sits the mansion on the hill, elegantly Tudor, with 34 marbled rooms.

Its privacy is defined by black iron gates and stony walls and is ensured by an imposing doghouse adorned with a scrawled "Killer's

Chateau D'Amour.

The owner is handsome and bristle-bearded, elegant in his stylish red track suit and sneakers. When he talks, he moves his head easily, his arms less elegantly. That is all. Although he has some strength in his biceps, he cannot move his fingers, and must guide his motorized wheelchair with gestures that are sometimes awkward, and sometimes apprehensive. "If I go forward, you better catch me," he warned. "I'm just beginning to understand these things.

Teddy Pendergrass, 34, once one of the most popular soul sing-ers in the United States, is paralyzed from the shoulders down. He has been a quadriplegic since March 18, 1982, when his Rolls-Royce careened off a guardrail in nearby Germantown and crashed into a tree. His neck was broken, his spinal cord crushed. It took police 45 minutes to cut him out of his car.

When Pendergrass regained consciousness moments after the crash, he knew he was alive, but he couldn't feel it. "I realized I was still here because I saw the wreckage," he said. "After that I didn't know very much of anything."

in the chill of that early spring morning, Teddy Pendergrass end-ed his career as one of the most charismatic singers and sex symbols in pop music and began his battle for survival. If there was to be life, there must also be song, or the life was not worth living. To hear that first note, to make that first sound, was downright scary.

"There was no time when I said, 'Well, now I'm going to try,' " Pendergrass said. "It wasn't until after all the hospital

rigmarole and the tests that I recognized I could probably still make a go of singing. I hummed, starting out with television commercials. I thought to myself. 'Well, I'm still in tune.' That's when I became conscious I was going to make a go of it, come hell or high water.

It soon became apparent that the injuries had left Pendergrass almost completely paralyzed from the neck down, with functional use of and sensation in only his shoulders and elbows. For Pendergrass, known to his

fans as Teddy Bear, the accident was the greatest in a series of tragedies that included the stillunsolved murder of his manager and at least one attempt on his life by a distraught fan.

Eventually he joined a group

called the Cadillacs as a drummer, which merged with another Philadelphia group, the Blue Notes. By 1970 he had moved from behind the drum kit to center stage as lead vocalist. He stayed there until 1976, when, after an acrimonious split, he embarked on a solo career that turned him into a major pop idol. His performances were stereotypically macho, yet his talents as a singer were never obscured.

"I found a road to go down that would be rewarding musically and careerwise," he said, "and that was to sing about love. To this day, I don't understand the difference between a love song and a gospel song. I guess it all depends on who you're singing it to. It's all from the heart, it's all honest. It all flows together."

There were gold and platinum albums, sold-out arena concerts and other trappings of success. Now the victories are smaller. In July Pendergrass received his high school equivalency diploma. He had started the correspon-

dence program soon after the ac-"something I'd always wanted to do to make sure l achieved at least a high school diploma. It was mentally stimulating and it took my mind off my personal problems."

Although he recently released his first album since the accident, Pendergrass's first order of business is physical therapy, which includes electrical muscle stimulation and biofeedback, and what he calls "mental therapy." He seems on top of things, although he's quick to admit, "I have my days. I have my days."

There have been efforts to turn him into a spokesman for victims of spinal cord injury, but that's one weight Pendergrass is not quite ready to take on. "I think I'm having a hard enough time trying to adjust to the situation. I understand what I have to do to just meet each day, to lay out what I can do."

His new album, "Love Language," a collection heavy on bal-

Pendergrass says, "there was no lads, was a test not only or rock music in my house when I was growing up. I didn't go to a party until I was 14. I was a late there's any challenge in the world, that was it. We did the album, and after four days' rest I had to go into surgery. Talk about mental pressure! Twenty-one days blocked out from song 1 to song 10 and then you know they're going to cut you! You try to be as creative as you can and not think

> Even though he's not touring. Pendergrass's music is getting around. On this day he's just finished listening to one of his new songs, "Hold Me in Your Arms," used on "As the World Turns." "No dialogue and a fairly hot scene, if I say so myself," he chorfles. Another, "Choose Me," is the theme song for a soon-to-bereleased film starring Leslie Ann Warren, Genevieve Bujold and

> So he can sing again, and he can record again. Will he walk again? There's a slight pause, but no restraint in the answer. "I sure hope so. If it's humanly possible if anything changes, I'm certainly going to be on top of it. We've got our thoughts crossed. I would say I got my fingers crossed, but that's a little hard."

He has had tremendous support, from his fans, who sent him tens of thousands of letters and hundreds of teddy bears, from his production and management companies, from his girlfriend, Karen Still. He's also buoyed by his family and his children — Teddy Jr., Tisha, LaDonna and Tamon.

For many years, Pendergrass used to open his concerts with "Life Is a Song Worth Singing." "That was the first message I wanted to sing. Whatever your mood was or whatever was going through your mind when you came to see Teddy, it was a time to forget your personal problems.

"To me, life is still a song worth singing, regardless. I don't give a damn, it's still worth singing. Everybody has a day when they feel, Oh God, I don't want to be bothered with anybody,' and there's no harm in feeling that way. "But if you're here on earth, life-

is a song worth singing. It doesn't change. It doesn't change."

Taylor, Burton Relatives Have Reunion in Wales

About 300 people sang a wel-come to Elizabeth Taylor in Pontr-hydyfen. Wales, the birthplace of her former husband. Richard Bur-ton, when she arrived Sunday night for a reunion with the late actor's sisters and brothers. She left Monday after telling his relatives ther she wants to be buried there, as they had once agreed

The trumpeter Miles Davis brought a self-out crowd to its feet at Sunday's finale of the Newport Jazz Festival's 30th Anniversary at Newport, Rhode Island. Davis. whose 1969 visit to Newport in spired him to fuse jazz with funky electronic rock, drew long applause after his trumper version of the Cindy Lauper hit "Time Alter-Time." Exrlier, Dave Brubeck and his quartet captivated the crowd with an array of the time signature experimentations that are his hallmark. Saturday's opener leasured Ray Charles, the saxophonist Deric Sanborn, the singer Flora Parin, the French pianist Michel Petrucciani, and the trumpeter Disse Cillespie, a veteran of the first New-port festival of 1954. Riots in 1971 sent the festival to New York City. It returned to Newport three years ago. Richie Havens, who joined Joan Baez and Donovan for a concert at Caldwell, New Jersey, on the 15th anniversary of the Woodstock Jestival, says the spirit generated at the Bethel, New York, dairy farm "never left." But Baez said, "I'm tired of the '60s. I don't want to talk about Woodstock. I feel a part of my life is to try to dig people out of the '60s and direct them into the '80s, Because I think the '80s are hard to confront,"...

An estimated one million South Koreans heard the American evangelist Billy Graham preach in Seoul Sunday as part of celebrations to mark the centenary of Protestantism in Korez.

Nigel Lawson, Britain's chancelfor of the exchequer, was robbed of £90 (about \$119) he left in a jacket at his official residence at 11 Downing Street, police said Monday. Lawson, who lives next door to Prime Minister Margaret Thatcher at No. 10, told police the money was apparently stolen from a wallet he had left in the jacket, a Scotland Yard spokesman said.
